Crack-repair project to begin on Rush County section of K-96

A crack-repair project on a 15-mile section of K-96 in Rush County is expected to begin Monday, Aug. 31.

The work is planned to start at the Ness/Rush County line and proceed east to 700 feet east of the U.S. 183 junction in Rush County.

The project is expected to be completed around Sept. 11, depending on the weather.

During the work, traffic will be controlled by flaggers and a pilot car, so motorists should be prepared to stop and be delayed by up to 15 minutes.

The Kansas Department of Transportation is overseeing the project.

Mission Construction Co. Inc., of St. Paul, Kan., is the main contractor for the \$112,036 project.

The map below shows the approximate project section, marked in red.
