U.S. 24 crack seal today in Clay County

The Kansas Department of Transportation has begun a crack seal operation on U.S. 24 beginning at the Clay/Cloud county line and continuing east to the Clay/Riley county line; work will occur in approximately three-mile stretches.

Traffic will be reduced to one lane following a pilot car through the location where the contractor is actively working. Drivers should be prepared for a delay of up to 15 minutes and plan extra time in their travel schedules.

Pavement Pro's LLC of McPherson is the prime contractor and have scheduled this 20-mile project to be completed by March 13, weather permitting.

KDOT urges all motorists to be alert and obey the warning signs when approaching and driving through a highway work zone. To stay aware of all road construction projects across Kansas go to www.kandrive.org or call 5-1-1.
