### **Current Road Conditions**

Currently roadway conditions across Northeast Kansas range from normal seasonal to spots snowpacked throughout the entire region. See the chart below for current roadway conditions for individual Northeast Kansas counties.

Daytime crews have headed home for some much needed rest. Smaller nighttime crews are on duty in several areas to monitor and/or plow/treat as needed during the overnight hours. Crews will resume normal schedules tomorrow, Thursday, February 3.

During the evening/overnight hours, drivers should still allow extra time, drive for the conditions on the roadways they are travelling on, and use caution as roadways may be SLICK in spots due to the frigid temps that will occur overnight. Drivers should have a smooth commute tomorrow morning as most of the roadways have returned to normal seasonal conditions.

### Current Road Closures for Northeast Kansas

[K-99 in Marshall County](#) is **STILL CLOSED** from the east city limits of Beattie to the Nebraska state line for (approximately 12 miles) to all traffic! K-99 has been closed due to drifting conditions and a stalled semi off the roadway as of 6:15 p.m., Tuesday, February 1.

### Driver Safety Tips

Please remind DRIVERS as they travel about to:

1. Take it SLOW!
2. Allow plenty of extra drive time.
3. Watch for icy/slick spots on the roadway; don't assume that if the pavement looks clear, that it is.
4. Buckle up every passenger, every time.
5. If they get stranded, to stay IN their vehicle and call \*47 on a state highway/interstate route (any highway that begins with I-, K-, and US-), \*KTA on the Kansas Turnpike, or #911 at anytime.

*For travel during winter storms, drivers should use caution, allow plenty of driving time, buckle up (every passenger, every time) and be sure to turn on their headlights, and turn off their cruise control. Drivers should also provide for a safe distance or cushion between themselves and vehicles ahead of them.*

*We also want to remind drivers to stay a safe distance back from KDOT snow plows, and if drivers should pass the snow plows, to be extra careful and allow plenty of room as the trucks do travel slower than surrounding traffic.*

### Updated Road Conditions (via phone or online 24/7)

Updated Kansas road conditions are at your fingertips. **KanDrive** is the new online travel info portal, [www.KanDrive.org](http://www.KanDrive.org), that displays information from KDOT's traveler information technology, including highway cameras, dynamic message signs, traffic management centers and 511 phone, online and mobile (<http://511mm.ksdot.org>). Snapshots from more than 30 closed-circuit cameras along I-70 between Topeka and Colorado and along other highways in the state, as well as camera views from the KC Scout system are available through the new online site, so users can see the roadway conditions.

Travelers can also obtain updated road conditions simply by calling 511 from any phone (landline or cellular), or by clicking on the following link: <http://511.ksdot.org>, drivers can obtain updated all of Kansas road conditions at **anytime, day or night.**

Additional weather-related information can be found online at <http://www.ksdot.org/offTransInfo/511Info/511traffictavel.asp>. This KDOT web site link includes informational brochures on 511 Winter Storm Survival, Managing Snow and Ice on Kansas Highways, and Safe Winter Driving Tips. Drivers...“If the weather is bad, remember with ICE AND SNOW, Take it Slow, or just don't go.”
