## **Westbound I-70 on Lewis and Clark Viaduct reopens**

Westbound I-70 on the Lewis and Clark Viaduct in Kansas City, Ks. reopened last weekend, according to the Kansas Department of Transportation. The westbound bridge replacement project was started in 2018 at an estimated cost of \$65 million.

The Lewis and Clark Viaduct on Interstate 70 connects Kansas City, Ks., and Kansas City, Mo. The original bridge carrying the westbound lanes was built in 1962. Deck work on the bridge will continue this spring, requiring some lane closures.

For additional road condition details, check KDOT's updated traveler information website, [www.Kandrive.org](http://www.Kandrive.org). KDOT urges all motorists to be alert and obey the warning signs when approaching and driving through a work zone. Drive safely and always wear your seat belt.
