Intersection improvement project start date postponed at K-16/Parallel Road in Leavenworth County

The start date of the Kansas Department of Transportation intersection improvement project at K-16/Parallel Road, in Leavenworth County, has been postponed.

After discussions with local utility companies and project stakeholders, the start of the intersection improvement project has been postponed. A new project start date, new phasing schedule and construction timeline are expected in the next couple of weeks. Project completion date is expected to remain the same.

The project includes improvements to sight distances at the intersection and the addition of shoulders to the roadway.

Message boards are in place notifying motorists of the upcoming project.

King’s Construction, of Oskaloosa, is the contractor for the $1.3 million project, which is expected to be completed in late November, with lanes open to traffic in mid-October.

KDOT urges all motorists to be alert and obey the warning signs when approaching and driving through a highway work zone. To stay aware of all road construction projects across Kansas go to www.kandrive.org or call 5-1-1. Drive safely and always wear your seat belt.
