K-5 bridge survey begins today in Wyandotte County

A Kansas Department of Transportation field survey begins today, Monday, April 10, on the K-5 bridge over the Union Pacific Railroad, located one-half mile west of U.S. 69, in Wyandotte County.

This survey is to gather information necessary for the detailed design of the proposed improvement related to design and construction of the K-5 bridge over the Union Pacific Railroad, one-half mile west of U.S. 69.

The survey area includes approximately 2,000 feet of K-5 and is estimated to be completed in mid-May.

Johnny Yackle, P.S., Survey Project Manager, of HDR, will manage this survey for KDOT.

A member of the survey crew first will contact property owners and/or tenants for permission to enter private property. Survey activities will include the use of survey instruments on the ground to determine locations of existing features within the survey corridor.

Map below shows survey location marked in orange.
