TITLE VI COORDINATORS

REGARDING TITLE VI NONDISCRIMINATION POLICY

It is the policy of the Kansas Department of Transportation to assure full compliance with Title VI Nondiscrimination of the Civil Rights Act of 1964. This policy has been incorporated into the Title VI Nondiscrimination assurances, executed by the Department of Transportation in connection with all Federal-Aid Programs including Federal Highway Administration, Federal Transit Administration, and Federal Aviation Administration.

Title VI ensures that no person shall on the grounds of race, color, or national origin be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity administered by the Kansas Department of Transportation.

Subsequent nondiscrimination authorities and directives also ensure that no person or group of persons shall, on the grounds of age, disability, sex, low income, or limited English proficiency be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity administered by the Kansas Department of Transportation.

To ensure that all Title VI Nondiscrimination requirements are met, all management personnel shall make every effort to identify and eliminate discrimination which may occur in any program or activity of the department; and implement policies and procedures to ensure compliance with Title VI Nondiscrimination requirements.

TITLE VI/NONDISCRIMINATION

POLICY: It is the policy of the Kansas Department of Transportation:

A. To ensure, in all programs and activities to the maximum possible extent, compliance with Title VI of the Civil rights Act of 1964, 49 CFR Part 21; and related statutes and regulations;
B. To assess all plans and proposals so that no person shall be excluded from participation in, be denied the benefits of, or in any manner discriminated against or treated inequitably by reason of the person’s race, color, sex, national origin, or veteran’s status under any department program or activity receiving federal financial assistance;
C. To identify and eliminate discrimination where found to exist within any program or activity of the Department;
D. To develop and implement policies and procedures or to amend existing procedures to comply with Title VI requirements; and
E. To promptly resolve conditions of inadequacy or non-compliance.

ASSURANCES: Signed "assurances" are required of each state highway agency (SHA) by Title 49, Code of Federal Regulations, Part 21 (49 CFR 21) and related statutes and regulations. These are necessary to implement the foregoing policy. Title VI/Nondiscrimination assurances identify the major transportation operational areas where extensive exclusion, adverse and/or disparate impact and denial of benefits may occur. Understanding of the Title VI assurances is vital to all parties in carrying out operational responsibilities within the Department, and should distinguish the difference between EEO, Title VI, and other civil rights areas. Title VI/Nondiscrimination does not apply to employment matters except in two instances:

A. When the primary objective of a federally assisted program is to provide employment (as in Appalachia); or,
B. When discrimination has been found in a program and the employment posture of the administrating unit is found to be a significant contributing factor in inhibiting and contrary to Title VI/Nondiscrimination policy.

The most recent Title VI Assurances were signed by Kansas Secretary of Transportation & Director of Kansas Turnpike Authority, Julie Lorenz, on September 29, 2022. See Appendix B

In addition, the brochures can be downloaded from the KDOT website for public use.

DATA COLLECTION: The following is a list of the types of data KDOT may keep on each project or program:

A. What services, benefits, or impacts will be provided by this project or program?
B. Who or what groups of people will be impacted by the project or program?
C. A population breakdown by race, color, sex, national origin, and income status for the affected area.
D. Are bilingual employees needed in this area?

F. The steps used in the relocation process.
G. Other demographic maps, racial composition, or census data about the affected area.

3) Review procedures in identifying and considering impacts of projects on communities.

B. Public Involvement:

1) Assist in obtaining public involvement, when applicable.
2) Attend meetings involving Title VI/Nondiscrimination issues.
3) Assist in the development of Title VI/Nondiscrimination information for the public in languages other than English, when necessary.

C. Benefits and Services:

1) Accompany right-of-way staff to compare treatment received by all people, especially minorities and females.
2) Review appraisal, acquisition, and relocation procedures to assure equitable benefits and services to all property owners.

See brochures:

ACQUISITION, Real Property Acquisition for Kansas Highways, Roads, Streets and Bridges, dated April 2015.

3) Advise External EEO Officer of discrimination complaints or problems.
4) Cooperate with Title VI/Nondiscrimination reviews and comply with report findings.

REVIEWS OF CITIES AND COUNTIES:

KDOT must assure that the benefits of federal-aid programs are provided to all eligible beneficiaries on a basis that is quantitatively proportionate and qualitatively equivalent. The goal of the reviewer is to point out deficiencies and assist the recipient to achieve compliance, not to find discrimination.

A. Develop data to identify first-class cities in Kansas by population size. 10,000 would be the smallest area reviewed.
B. Develop data to identify counties in Kansas by population size. 20,000 would be the smallest area reviewed.
C. Identify the recipient’s use of the funds (such as right-of-way, construction, etc.)
D. Note the total population, the minority population, and the distribution of the minority population.
E. Note the significant social impact of projects.
F. The review questionnaire should be directed to the type of activity being done with federal funds (research, engineering, etc.).
G. Reviews should be scheduled with cities or counties utilizing federal-aid funds at the current time and with a significant minority population that could be impacted.

H. During the review, the following documents should be examined:

   1) Copy of the agreement between the city/county and KDOT to check for Title VI/Nondiscrimination references.
   2) List of consultants being utilized for federal-aid projects.
   3) Documentation of efforts to identify and utilize minority and female consultants, if applicable.
   4) Copy of the city/county consultant contracts to check for Title VI/Nondiscrimination references.
   5) Information on city/county effort to involve minorities and females in preliminary engineering, if applicable.
   6) If any deficiencies are noted, KDOT should make every effort to assist the city/county in its corrective measures.
   7) All review activity completed by KDOT is reported in the Title VI Report to FHWA annually.

REVIEW OF CONSULTANTS:

Consultants that are subject to Title VI/Nondiscrimination review have contracts with KDOT, or a city/county, or are financed with federal-aid funds. The review will not look at employment practices, but rather an examination of specific activities to ensure nondiscrimination (to the extent possible) in the benefits and services of its contract. Priority should be given to consultants whose studies will impact high minority areas. The review should concentrate on the consultant’s efforts to ensure input and/or participation by those affected by the project.

REVIEW OF METROPOLITAN PLANNING ORGANIZATIONS:

   A. Review list of documents:
      1) Title VI plan
      2) Title VI Assurances

   C. The methods used to inform the public of their rights under Title VI as it relates to the MPO’s transportation planning process.
   D. Information on the members of the MPO Policy Body and Technical Advisory Committee, method of selection and the jurisdiction each member represents.
   E. What the total dollar amount of Consolidated Planning Grant (CPG) funds received annually by the MPO from KDOT.

4. Refer the case to the Department of Justice for appropriate legal proceedings.

COMPLAINT PROCESS

Any external Title VI complaints alleging discrimination, violation of civil rights or non-compliance with civil rights requirements shall receive prompt attention. Once a Title VI complaint has been filed with KDOT, the complaint will be forwarded to the Kansas Federal Highway Administration Division Office. The FHWA Division office will then process and investigate the complaint.

Revised September 28, 2022
TITLE VI COORDINATOR TRAINING AND RESPONSIBILITIES

**Training:**

The Office of Civil Rights Compliance will present, in conjunction with FHWA, periodic training on Title VI and Environmental Justice issues. This training course will:

- Define Environmental Justice and Title VI of the Civil Rights Act of 1964.
- Explain the relationship between Environmental Justice and Title VI.
- List and explain the fundamental principles of Environmental Justice.
- Learn how to apply the principles of Environmental Justice.
- Explain why the accomplishment of Environmental Justice applies to every stage of transportation decision making and how it improves decision making.
- Describe the benefits of Environmental Justice in transportation decision making and the opportunities for partnership among all stakeholders.
- Develop proactive strategies, methods, and technique to integrate Environmental Justice in transportation decision making.

**Reports:**

Each year, the Office of Civil Rights Compliance prepares a Title VI report for FHWA. Every three years, an updated Title VI Plan will be prepared for FTA. These reports serve as an assurance to FHWA, FTA and other governmental bodies that KDOT is taking measures to assure that KDOT is not discriminating in the products or services that we provide. It includes such information as:

- KDOT’s Title VI Policy
- Summarized Title VI Reviews performed on Cities, Counties, Subrecipients and MPOs and findings, if any, during the reporting period.
- Title VI Accomplishments by various areas of KDOT during the reporting period.
- Title VI Goals for various areas of KDOT for the next reporting period.
- Details of Title VI Complaints received during the reporting period and findings for each.
- ADA Coordinator report
- Limited English Proficiency (LEP) report
LIMITED ENGLISH PROFICIENCY (LEP)

Purpose

The Kansas Department of Transportation and those receiving assistance from the federal government must take reasonable steps to ensure that Limited English Proficiency (LEP) persons have meaningful access to the programs, services, and information those entities provide. This will require recipients to create solutions to address the needs of this ever-growing population of individuals, for whom English is not their primary language.

Who is a Limited English Proficient Person?

Persons who do not speak English as their primary language and who have a limited ability to read, speak, write, or understand English can be limited English proficient, or “LEP”. These individuals may be entitled to language assistance with respect to a particular type of service, benefit, or encounter. These services are provided free of charge to the public and this notice is provided on all public meeting notices, is posted on KDOT’s website, and on the official bulletin board located in the Eisenhower State Office Building.

Examples of populations likely to include LEP persons who are served or encountered by the Kansas Department of Transportation recipients and should be considered when planning language services include, but are not limited to:

- Public transportation passengers
- Persons who apply for a driver’s license at the department of motor vehicles
- Persons subject to the control of Kansas or local transportation enforcement authorities
- Persons served by emergency transportation response programs
- Persons living in areas affected or potentially affect by transportation projects
- Business owners who apply to participate in the Kansas Disadvantaged Business Enterprise program

Authorities

Title VI of the 1964 Civil Rights Act

“No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance.” (42 U.S.C 2000d)
Executive Order 13166

On August 11, 2000, President Clinton signed Executive Order 13166, "Improving Access to Services for Persons with Limited English Proficiency." The Executive Order requires Federal agencies to examine the services they provide, identify any need for services to those with limited English proficiency (LEP), and develop and implement a system to provide those services so LEP persons can have meaningful access to them. It is expected that agency plans will provide for such meaningful access consistent with, and without unduly burdening, the fundamental mission of the agency. The Executive Order also requires that the Federal agencies work to ensure that recipients of Federal financial assistance provide meaningful access to their LEP applicants and beneficiaries.

Who must comply?

All programs and operations of entities that receive assistance from the federal government (i.e., recipients), including:

- State agencies (i.e., Kansas Dept of Transportation)
- Local agencies
- Private and nonprofit entities
- Sub recipients (entities that receive federal funding from one of the recipients listed above) also must comply.
- All programs and operations of the federal government also must comply.

Other Legal Authorities

FHWA Title VI Regulation, 23 CFR 200
USDOT Title VI Regulations, 49 CFR 21
USDOT LEP Guidelines, 70 FR 74087 (Dec. 14, 2005)

Four-Factor Analysis

KDOT has an obligation to reduce language barriers that can preclude meaningful access by LEP persons to important transportation services. KDOT has assessed the following four factors:

Factor One: The number or proportion of LEP persons served or likely to be encountered in the eligible KDOT service population

In an effort to determine LEP persons in Kansas, KDOT collected data from several sources. Available data illustrated:

The Total Population in Kansas is 2,934,582 according to the 2021 U.S. Census Bureau American Community Survey. (2,757,015 are over the age of 5 years old). The 2021 Census estimates that 321,077 people, or 11.6% of our total population, speak a language other than English at home (population 5 years and over).
In 2021, the U.S. Census indicated there were 2,757,015 people over the age of 5 living in Kansas. Of those, the Census identified 127,137 persons (or 4.6%) who speak English less than “very well”. The languages spoken were identified as:

- Spanish or Spanish Creole: 217,721
- Other Indo-European language: 37,002
- Asian or Pacific Island language: 49,552
- Other language: 16,802
- **Total**: 321,077

Initially, we identified the seven counties with the largest percentage of individuals who speak English less than “very well” in Kansas to be: Finney, Ford, Grant, Hamilton, Haskell, Seward, and Wyandotte.

Because of previous court rulings, we wanted to also consider the fact that the following six counties in Kansas have been designated as Covered Areas for Voting Rights Bilingual Election Materials – Under the Voting Rights Act Amendments of 1992, Determinations Under Section 203 of the Federal Register/Vol. 86, No. 233/Notices, December 8, 2021.

Section 203 mandates that a state or political subdivision must provide language assistance to voters if more than 5 percent of the voting age citizens are members of a single-language minority group who do not “speak or understand English adequately enough to participate in the electoral process” and if the rate of those citizens who have not completed the fifth grade is higher than the national rate of voting age citizens who have not completed the fifth grade. When a state is covered for a particular language minority group, an exception is made for any political subdivision in which less than 5 percent of the voting age citizens are members of the minority group and are limited in English proficiency, unless the political subdivision is covered independently. A political subdivision also is covered if more than 10,000 of the voting age citizens are members of a single-language minority group, do not “speak or understand English adequately enough to participate in the electoral process,” and the rate of those citizens who have not completed the fifth grade is higher than the national rate of voting age citizens who have not completed the fifth grade.

The political subdivisions obligated to comply with the language assistance provisions of Section 203 are listed below:

Because of the Court’s determination of language assistance eligibility in the above counties, we have determined that it is reasonable to include these counties for transportation language assistance consideration as well. It is reasonable to conclude that those individuals who are 18 years and over and are registered to vote are also likely to be involved in the public input process of transportation planning. Therefore, combining these two groups of counties, the counties LEP individuals are most likely to be encountered based on residence are:

Finney, Ford, Grant, Hamilton, Haskell, Seward, Stevens, and Wyandotte

(Report continued on next page.)
Based on these calculations by county and broken down by language spoken, the following counties reveal that 5 or more percent of the county does not speak English “very well” and speak a common language other than English:

Finney, Ford, Grant, Hamilton, Haskell, Seward, Stevens, and Wyandotte

The common language spoken is Spanish or Spanish Creole.

**Factor Two: The frequency with which LEP individuals come in contact with KDOT programs, activities, or services**

KDOT has and will continue to provide whatever services were needed to enable communications with the traveling public free of charge. Estimated future LEP Contact: approximately five contacts per year.

**Factor Three: The nature and importance of program, activity, or services provided by KDOT.**

**Safe Harbor Provision:**

KDOT has identified several counties with an eligible LEP language group. The eligible LEP language group is Spanish/Spanish Creole. To provide a Safe Harbor for the affected population, KDOT has the following translated vital public documents in Spanish:

For the traveling population:
- Driver safety information – DUI, texting
- Motorcycle driving & safety awareness
- Passenger safety information - car seats
- Notice of person’s rights under Title VI
- Complaint information
- Transit route information
- Public Notice Announcements for Construction Projects

For the construction workers on federal and state funded projects:
- EEO Jobsite posters
Wage rate interview questionnaire
EEO worker interview

The above referenced documents are available statewide.

KDOT has also identified the following as core documents: TIP (Transportation Improvement Program), STIP (Statewide Transportation Improvement Program), and our PPP (Public Participation Program). Because these documents are accessible on-line, translation applications such as Google Translate provide a viable option to those interested in viewing these documents in languages other than English.

KDOT employees provide timely language assistance by utilizing contracted “on-demand” telephonic interpreter services.

Transit Providers:

All transit providers are required to provide specific documents for their transit users. These documents include items such as application forms, route information, notices of route changes, etc. The providers identify their LEP population in their Title VI plan and provide language assistance as needed for their commuters free of charge.

Traffic Safety Section:

KDOT Traffic Safety Section (TSS) has determined that the minority population including the LEP drivers, in Kansas, is a High-Risk segment of the driving population. To reach out to the LEP drivers and as a response to requests, TSS has taken the initiative to translate their safety messages into Spanish as they are developed and/or updated. In addition, the TSS has translated their Mission Statement, on their internet website, into Spanish.

TSS opened their Traffic Safety Resource Office in October 2007. At least one staff member is bilingual in Spanish and English. This dedicated staff reaches out to Kansas residents, including the Latino community, to further increase awareness of traffic safety issues, education on impaired driving, motorcycle safety & awareness, and novice drivers.

Internal EEO Officer:

A telephonic interpreter service is available for use when conversing with our customers who are non-English speakers. Each program area of the KDOT have been instructed to contract with a translation service that best fits their needs from the list of services available through the State of Kansas Department of Administration. Each of the translation services provide a variety of written, oral, and/or video translation services.
If a Sign language interpreter is requested, the agency contacts the Kansas Commission for the Deaf and Hard of Hearing for assistance in locating an interpreter.

Braille transcription services and production of brochures in Braille is available to KDOT through the State Library of Kansas for those visually impaired.

The Office of Civil Rights Compliance:

The Office of Civil Rights Compliance monitors the job-site posters on KDOT construction projects. These posters, in English and Spanish, are provided to contractors during pre-construction meetings and on an “as-needed” basis. Posters are available electronically.

Bureau of Right of Way

KDOT takes the measures necessary to work with the public the staff in Right of Way (ROW) encounters in administering the Relocation Assistance Program. Typically, it has not been necessary to hire an outside translator because ROW has always been able to utilize a KDOT staff member that is bilingual or the constituent has had a family member or friend who was able to assist in translation.

The KDOT ROW utilizes an informational brochure that describes the rights and benefits of a person being displaced. The brochure: “RELOCATION, Your Rights and Benefits as a Displaced Person Under the Federal Relocation Assistance Program” is available in English and Spanish.

KDOT ROW staff is trained to communicate in the simplest level to those they are working with, especially with persons who may be relocated or otherwise displaced. If information is needed in Spanish or other language, ROW will consult with FHWA, HUD and other state ROW departments to find the tool or service to fill the need.

Bureau of Construction and Materials

KDOT takes the necessary actions to address communication problems as they are encountered. Increasingly, contractors working on KDOT projects have crews that consist of persons who speak a language other than English. Most often, they speak Spanish. KDOT relies on that contractor’s foreman or supervisor to assist with translation. Telephonic interpreter services can also be utilized as needed.

KDOT recognizes the higher likelihood of encountering Spanish speaking individuals in District 6, southwest Kansas (see Finney, Ford, Grant, Hamilton, Haskell, Seward, and Stevens County) and provides a Safe Harbor by making Public Announcements for Projects in both English and Spanish. Spanish interpreters are available to assist as needed or requested.
The Flagger Handbook is available and provided to contractor’s personnel in both English and Spanish.

**Factor Four: The resources available to recipient and costs.**

Utilization of State contract for telephonic/written/video interpreter services.

Effective February 1, 2020, the State of Kansas bid a contact for Translation and Interpretation Services that is a Mandatory Statewide Optional Use Contract. This means that the contract is mandatory; however, each agency has the choice as to which vendor to use.

The new contract covers the following services:

- Document Translation
- Braille Document Conversion
- Onsite Spoken Interpretation
- Video Remote Interpretation
- Sign Language Interpretation Services
- CART (Realtime) Services
- Document Conversion

The attached table was provided by the Kansas Department of Administration and provides a list of all vendors. To search the individual vendor contracts, go to [http://da.ks.gov/purch/Contracts/](http://da.ks.gov/purch/Contracts/) and type the specific contract number into the appropriate box and search. This will bring up the details for that vendor.

There are five contracted vendors who offer telephone conferencing / over-the-phone interpreting. The Office of Chief Counsel and Office of Civil Rights Compliance selected Contract No. 48068 Language Line Services, Inc. as they had a cheaper rate and provided coverage for the Capital Region.

The translation service contract option information was forwarded to all program areas of KDOT.

**Utilization of in-house print shop to print brochures in languages other than English.**

The KDOT in-house print shop prints the KDOT Title VI “Your Rights” brochures printed in English and Spanish for distribution at public meetings, public hearings, and informational kiosks. The brochure is available to city and county municipalities.

Cost: Little or no additional cost other than the standard cost of printing of the brochure.
Public Transportation Safety Messages translated into languages other than English.

There is an initial cost when a new document is translated into a language other than English. Generally, a contractor is selected for this service and that cost is considered when the work RFQ is proposed.

Printing cost: there is little or no additional cost other than the standard cost of printing of the safety message.

Public Announcements translated into languages other than English.

Whenever public meetings or hearings are planned for community with an increased likelihood that individuals who speak a language other than English are encouraged to attend, public announcements will be published in English and in the language deemed most likely to be encountered for that community. For example, Notices published in English and Spanish.

Cost: The advertising cost is generally doubled because most advertising is sold by the linear inch and the Notice is essentially being repeated.

KDOT Learning Center Courses.

KDOT has an on-line course to teach Construction Spanish. The course contains 17 different modules and is available agency wide.

Cost: Available at no cost to KDOT employees.

Construction Spanish Dictionary

Small pocket-sized dictionary with construction words and phrases in both English and Spanish. **SPANISH ENGLISH CONSTRUCTION DICTIONARY 2ND EDITION.**

Cost: Available through the Associated General Contractors of America (AGC) Item #5099 $23.95 to members; $53.85 to non-members; and Kansas Contractors Association (KCA) $17.96 to members.

Sign Language Interpreter

Contact the Kansas Commission for the Deaf and Hard of Hearing.

Cost: Hourly rate plus mileage
Braille Services

The State Library of Kansas provides Braille transcription and production services for state agencies that need their brochures or other shorter documents printed in Braille.

If the State Library of Kansas is not able to do the transcription, a list of referrals to other organizations can be provided.

Cost: No cost to agency for basic brochures or shorter documents. There may be material costs for larger documents. KDOT will contact the State Library of Kansas for details when needed.

Hearing and/or speech Disabilities

The Kansas Relay Center facilitates communication with Kansans that have hearing and/or speech disabilities. These persons communicate with a telecommunications device for the deaf (TDD), a combination telephone/typewriter that enables the individual to type out his or her portion of the conversation. Other forms of TDDs include teletypewriters and compatible personal computers with modems.

Cost: Both speech/hearing disabled and hearing Kansans can access the Kansas Relay Center by calling a toll-free number.

Monitoring

1. Data collection at KDOT:
   A. The Title VI Coordinators will report occurrences of contact with LEP individuals in their respective district or bureau.
   B. The Title VI Coordinators will monitor usage of telephonic interpreter services utilized for interpretation or translation. Information to be tracked can include: Office or department requesting the service, what service was requested, time involved and cost.

   This data will be included in annual LEP Plan updates.

2. Periodically assessing changes in:
   A. Current LEP populations in Kansas affected or encountered
   B. Frequency of encounters with LEP language groups
   C. Nature and importance of activities to LEP persons
   D. Availability of resources, including technological advances and sources of additional resources, and the costs imposed
   E. Whether existing assistance is meeting the needs of LEP persons
F. Whether KDOT staff knows and understands the LEP plan and how to implement it
G. Whether identified sources for assistance are still available and viable.

3. Complaint Procedure

A. Individuals wishing to file an LEP complaint may use KDOT Form Number 1001 “Kansas Department of Transportation Complaint Form”. (See page 15)
B. LEP complaints will be processed following the complaint procedure established for discrimination complaints.

LEP Training

1. Periodically, approximately every three years, the Office of Civil Rights Compliance provides civil rights training for field construction staff. This training includes a segment on Title VI and LEP.

2. Annually, KDOT Office of Civil Rights Compliance personnel attend construction and maintenance district meetings. They briefly present Title VI topics. The KDOT OCR staff are available to answer any civil rights or contract compliance questions from KDOT and contractor personnel.

3. Title VI Coordinators throughout the agency receive periodic in-depth Title VI training.

APPENDIX A

During the performance of this contract, the contractor, for itself, its assignees, and successors in interest (hereinafter referred
to as the “contractor”) agrees as follows:

(1) **Compliance with Regulations:** The contractor shall comply with the Regulations relative to the
nondiscrimination in Federally-assisted programs of the Department of Transportation (hereinafter,
(hereinafter “FHWA”) Title 23, Code of Federal Regulations, Part 200 as they may be amended from time
to time, (hereinafter referred to as the Regulations), which are herein incorporated by reference and made a
part of this contract.

(2) **Nondiscrimination:** The Contractor, with regard to the work performed by it during the contract, shall not

THE ASSURANCE:
The Kansas Department of Transportation, as a recipient of federal funds for programs, has given the assurance that within daily operations, KDOT will not discriminate against any person on the basis of race, color, national origin, sex, age, disability, veteran or low income status.

THE LAWS:
Title VI of the Civil Rights Act of 1964 as amended and 49 CFR Part 21 prohibit discrimination based on race, color and national origin in all federal-aid programs.

The basic philosophy of the laws is that people affected by transportation programs should receive the services, benefits and opportunities to which they are entitled with no differences because of race, color, national origin, age, sex, disability, veteran or low income status.

WHAT IS DISCRIMINATION?
An intentional or unintentional act which subjects a person or a group to unequal treatment under a transportation program. Everyone, no matter what their race, sex, color or national origin, age, disability, veteran or low income status should be treated fairly and equally in all matters relating to transportation.

EXAMPLES OF PROHIBITED DISCRIMINATORY ACTS:
1. Public meetings that are held at hard-to-reach or inaccessible sites or at times when most affected people are working.
2. Zoning changes that would lower the quality of life in a neighborhood.
3. Unequal payments that are either offered or paid for similar properties.
4. Unequal relocation assistance or housing payments.
5. New housing that is not equal to the property replaced.
6. No effort made to locate minority or women contractors, consultants or researchers for transportation projects.
7. Minority and women contractors not notified about highway projects to be let for bid.
8. A neighborhood loses access to stores, services, medical offices, churches, recreation or transportation due to highway construction.
9. Property value decreases or increases in unequal ways due to highway construction.
10. Minority neighborhood roads that are not as well-maintained as those in non-minority areas.
11. Environmental impact is more severe on a minority or low income neighborhood as compared to a higher valuation area.
