

# APPENDIX

to the

## KANSAS DEPARTMENT OF TRANSPORTATION'S

### 2019 Annual Report

---

*This appendix contains additional transportation information including:*

- Financial Compliance
- Project Selection Criteria
- Project list detailing projects currently scheduled for improvement, projects completed in FY 2018 and projects under construction. Also list of aviation, rail and public transit projects.
- Transportation Revolving Fund
- Modal Information
- Federal Fund Exchange Program

*Section A*

### ***Financial Compliance***

Each year, the Department provides financial information to the Governor and Legislature. This information includes both a summary of financial information and a statement of assurance that a Comprehensive Annual Financial Report (CAFR) of all funds for the preceding year has been prepared. The financial report must include a report by independent public accountants attesting that the financial statements present fairly the financial position of the Department in conformity with generally accepted accounting principles (GAAP).

The Department has prepared a CAFR for Fiscal Year (FY) 2018. A report of the independent public accountants,

CliftonLarsonAllen, LLP, is included in the CAFR after audit completion. Also included in the CAFR is a certificate of achievement awarded to the Department for excellence in financial reporting for the FY 2017 CAFR. This award marks the 30th consecutive year that the Department has received the award.

The complete CAFR is available by contacting the Department's Office of Public Affairs at 785-296-3585 (Voice)/(TTY). The FY 2018 CAFR is available under the KDOT Financial Disclosures section of the Department's website at <http://www.ksdot.org/bureaus/burFiscal/default.asp>.

# FY 2018 Financial Information

The following schedule is a summary of revenues and expenditures for all funds for FY 2018. All amounts are in thousands.

	<u>2018</u>	<u>Percent of Total</u>
<b><u>REVENUES</u></b>		
Motor Fuel Taxes	\$ 458,792	28 %
Vehicle Registrations and Permits	218,765	13
Intergovernmental	404,818	25
Sales and Use Taxes	530,765	33
Investment Earnings	5,980	0
Other	12,368	1
Transfers from		
Other State Funds	1,101	0
Total revenues	<u>1,632,589</u>	<u>100 %</u>

## **EXPENDITURES**

Current Operating		
Maintenance	131,099	8 %
Preservation	210,364	13
Modernization	46,580	3

	<u>2018</u>	<u>Percent of Total</u>
Expansion and enhancement	140,191	9 %
Communications system	4,647	0
Local Support	283,129	17
Rail, Air and Public Trans. Administration and transportation planning	56,188	3
46,014	3	
Debt Service		
Principal	108,285	7
Interest and fees	89,223	5
Transfers to Other		
State Funds	530,715	32
Total expenditures	<u>1,646,435</u>	<u>100 %</u>
<b><u>OTHER SOURCES (uses)</u></b>		
Revenue Bond Proceeds	200,000	83
Premium on Issuance of Debt	42,212	17
Loss on defeasance	(158)	0
Total other	<u>242,054</u>	<u>100 %</u>
Excess (Deficiency) of Revenues and Other Sources Over Expenditures	<u>228,208</u>	<u>100 %</u>

## ***Project Selection Criteria***

Fiscal Year 2019 begins the 9th year of the 10-year transportation program enacted by the Kansas Legislature in May 2010. As T-WORKS nears completion members from the legislature, Kansas Department of Transportation (KDOT) leadership and local stakeholders have jointly begun to explore the future of transportation in Kansas in the “Joint Legislative Transportation Vision Task Force” meetings conducted across the state this past summer and fall. These informational discussions were held to assess transportation needs and concerns across the state and to lay the ground work for the next transportation program. It is vital that this process begins now to ensure that KDOT is able to continue to deliver high-quality transportation infrastructure to Kansans and is able to respond to emerging transportation needs. While exploring and planning for the years beyond T-WORKS, KDOT is committed to the execution of the remaining years of the current program.

KDOT leadership employs many tools in the development and execution of a transportation program and project selection process beginning with the guidance from two plans. The 2008 Long-Range Transportation Plan (LRTP), which outlines high-level goals and the newly developed Transportation Asset Management Plan (TAMP) which provides a detailed assessment of current infrastructure and the effort and funding levels needed to maintain said infrastructure. Together the LRTP and TAMP, provide direction and focus for KDOT management establishing a framework for day-to-day decision-making processes. Under T-WORKS, KDOT developed a more strategic approach to highway project selection than previously used in the Comprehensive Transportation Program (CTP) which based project selection solely on engineering factors. In T-WORKS, while engineering factors still play an important role in project selections, they have been augmented with economic impact evaluation and/or local input in two of the primary programs. Additionally, the timing of projects selected to proceed to construction for the larger scale Preservation projects has changed

with selections now made on a 2-year rolling basis to create greater programming flexibility while in the past program, the CTP, all major projects were selected once at the start of each program. Extending project selections over the life of T-WORKS has increased KDOT’s responsiveness to changing roadway conditions and economic changes as they arise. By implementing these project selection changes, KDOT has developed greater stakeholder input, gained more flexibility in projects selected and increased maneuverability to respond to the prevailing economic conditions.

Under T-WORKS construction projects are categorized into four core programs: Preservation, Modernization, Expansion and Local Construction. The four core programs group construction projects with similar work types and scopes together. Projects within each of these major programs are further grouped together based upon similar funding sources or project-types into more specific groups or subcategories. In the new project selection process, there are evaluation criterion applied for project selections in the core programs.

For the Preservation program, engineering factors are an effective evaluation method for project selection and remain the sole factor used for selecting projects in this program. However, in the Modernization and Expansion programs, engineering factors are augmented with other factors. In the Modernization program, project selection combines historically strong engineering-based formulas with regional priorities and in the Expansion program, project selections combine engineering factors with regional priorities and economic impacts. In each of the programs, proposed projects are scored and ranked based upon how well the proposed projects address the relevant evaluation criteria. Then, selections are made based upon the combined information. The addition of these new factors helps ensure that a project is not only a sound engineering project but is also a project that aligns with the goals and priorities of a region and in the case of expansion projects provides economic benefits. Project selection for the fourth core program, Local Construction, remains unchanged and is determined at the local

## T-WORKS Project Selection Criteria

Program	Engineering Factors	Regional Priorities	Economic Impact	Other
Preservation	100%			
Modernization	80%	20%		
Expansion	50%	25%	25%	
Local Construction				100%

level by local entities throughout the state with the coordination of KDOT's Bureau of Local Projects.

The chart above illustrates the selection criteria applied to T-WORKS projects in each of the four core programs and the weight given to each criterion.

Engineering factors for the preservation, modernization and expansion programs are evaluated using the engineering-based formulas KDOT already has established. Regional priorities are determined through local-consult meetings held throughout the state with the most recent held this fall. Through these meetings and through the continued interaction between the area and district engineers with local entities, KDOT maintains a dialogue with stakeholders throughout the state concerning regional focus and priorities. The third factor, economic impact is assessed by the agency through computer modeling. Modeling estimates the potential increases in jobs, income and economic output for a region resulting from a specific transportation improvement.

The Preservation program protects the public's investment in its highway system by maintaining the "as built" condition of roads and bridges. This is a diverse group that includes both larger scale projects like roadway surfacing rehabilitations, major bridge repairs, full pavement and bridge replacements to smaller set-aside projects

like minor bridge repairs, resurfacing, patching and seals.

The engineering factors used when selecting preservation projects relate to the pavement and bridge conditions, like remaining pavement life, rutting, and cracking for roads and joint or bridge deck condition and/or load ratings for bridges. Roads and bridges are evaluated on an annual basis and projects are selected each year based upon this review. Additionally, within the preservation program, are a group of "other" set-aside projects that are unrelated to road condition but, rather, address such issues as signing, pavement markings and railroad crossing surfaces. Set-aside projects are so named because the funds

to perform the work is "set aside" or reserved specifically for the type of work designated by the set-aside subcategory. The "other" set-aside group of projects are generally federally funded while the road and bridge set-aside projects were traditionally state funded.

Recently, however, federal funds have been applied to the road and bridge set-aside projects as well. The road, bridge and other set-aside group of projects are selected on an annual basis while the larger scale preservation projects use the rolling two-year selection process. Since most projects in the Preservation program are selected annually and the work involved rarely requires more than one season to complete, the majority of the preservation projects listed in this report are for work to be performed in fiscal year 2019 only. Selecting and programming the set-aside projects in the Preservation program on an annual basis allows KDOT to maintain flexibility and responsiveness in their project selection process during T-WORKS.

The second core program, Modernization, focuses on improvements to the existing system. Projects under this program are designed to enhance safety and/or improve roadways by adding shoulders, flattening hills, straightening curves and upgrading intersections on already existing roadways. In May 2011, the final selection of the major modernization projects to be completed

under T-WORKS was made. These projects were then jointly announced in late May and June 2011 by the Governor and Secretary of Transportation. The scopes of the “major” or more complex modernization projects require selections be made early in the transportation program to ensure that there is sufficient time for the design and construction of the project during the T-WORKS program period. Presently, some of the previously programmed Modernization projects for 2018, 2019 and 2020 have been delayed.

Also included within the modernization program are the practical improvement projects which are developed out of the preservation program annual review of roads and bridges and the smaller scale set aside projects. Projects within the practical improvement umbrella are hybrids with elements of both the preservation and the modernization programs.

However, the projects have greater complexity and scope than preservation projects making them a better fit for the modernization program. In contrast to other modernization projects, practical improvement projects are not selected in advance but rather are selected on a need basis as determined from the annual review of roads. Project scope pertaining to shoulder improvement is an example of the type of work that is a good candidate for the practical improvement approach. By employing the practical improvement approach, a project may be completed in the most cost-efficient manner feasible. The implementation of this approach enables KDOT to stretch construction dollars and provide the greatest benefit possible for the dollars spent.

Projects in the four subcategories of the modernization program that are in the set aside program address issues like corridor development and smaller safety improvements like adding turn lanes and lighting. The set-aside projects like the practical improvement projects are selected on an annual basis. A small portion of modernization funding has been reserved to fund the practical improvement projects and set aside projects as they are identified as T-WORKS progresses.

The Expansion program, the third principal group under T-WORKS, is intended for projects that expand and enhance the transportation system. Projects in this program concentrate on improving access by adding new lanes or interchanges, reducing commute time and improving air quality by relieving congestion and enhancing economic development in a region by selecting projects with high economic impact. The expansion program, with the exception of the economic development (EDP) and intelligent transportation systems (ITS) set aside, was selected in early FY 2011 and announced by the Governor and Secretary of Transportation in May and June 2011.

Due to the complex nature of the Expansion program of projects, early selection is crucial to ensure sufficient planning, design and construction time during the T-WORKS program period. At this time, some of the previously programmed Expansion projects for 2018, 2019 and 2020 have been delayed.

To maintain some flexibility in scheduling in the expansion program, the economic development and intelligent transportation systems projects have been partially selected. The remaining economic development projects may be selected on an ongoing basis throughout T-WORKS and the intelligent transportation systems projects are selected on an annual basis. In this way, the agency maintains some flexibility to respond to new conditions as they arise throughout the remainder of the T-WORKS program.

The fourth program, Local Construction, focuses on improvements to city or county roads. The work encompassed by this program is varied in nature ranging from safety oriented, to maintenance of existing roadway, to small-scale expansion type projects. Regardless of the project focus, the common denominator for all projects is that the work is always on a city or county road. Many of the subcategories within the Local Construction program like the K1R-City Connecting Link Resurfacing (KLINK) program and TEX- Transportation Enhancement program to name only two are partnership programs in which KDOT or the federal government

partner with local entities to share the costs and enable local dollars to stretch further.

To generate candidate projects, many partnership programs employ a solicitation process in which prospective projects are solicited through an application process. The pool of project applications is prioritized based upon program specific criteria. Then, projects are evaluated, selected and programmed until the available funds are expended. The schedule for project solicitation varies but most of the partnership programs solicit projects on an annual basis. In other subcategories within the local construction program, the locals are solely responsible for project selection and development.

To assist local entities in their selection process KDOT makes available bridge inspection data, traffic accident data and traffic count data among other resources. In KDOT, the Bureau of Local Projects is the primary point of contact for local construction. Detailed information concerning the local construction program and specifically the partnership programs is located on the T-WORKS website, the link is provided below.

For an in depth look at the entire T-WORKS program including those projects in the core programs, KDOT has established a website that provides information about all projects selected. This website is a continued effort on KDOT's part to increase transparency and gain greater stakeholder input. To accomplish this goal, the website is not only a source of more information but is interactive with sites throughout that provide opportunities to submit questions, opportunities for participation in discussions and opportunities for comment submission. The T-WORKS website is located at the following link <http://kdotapp.ksdot.org/TWorks/>.

## ***Project Listings***

The project listings can be found starting on page B-1.

## ***Transportation Revolving Fund***

The Transportation Revolving Fund was a statewide revolving loan fund that provided loans to local units of government for financing road and bridge improvements on and off the State Highway System. Since August 2004, the fund provided 119 executed loans totaling \$141.7 million to 58 cities and counties. KDOT is currently reviewing the status of the TRF program.

## ***Modal Information*** **Public Transportation**

Public transportation in Kansas is supported by a state program and multiple Federal Transit Administration (FTA) funding programs authorized by the FAST Act. These funding programs, which are augmented by local match, provide the funding for 82 rural general public transit service providers, 68 transit providers that service elderly persons and persons with disabilities throughout the state, and six urban transit properties. Without these programs, many citizens would have no access to public transportation.

The FTA 49 U.S.C. 5311 program provides capital, planning, and operating assistance to states to support rural and small urban (under 50,000 population) transportation projects that serve the general public. For Federal Fiscal Year 2018, the 5311 program for the state of Kansas was funded in the amount of \$11,736,556.

The FTA 49 U.S.C. 5310 program is intended to enhance mobility for seniors and persons with disabilities by providing funds for programs to serve the special needs of transit-dependent populations beyond traditional public transportation services and Americans with Disabilities Act (ADA) complementary paratransit services. Urbanized areas and nonurban areas with populations under 200,000 are eligible for 5310 funds. For Federal Fiscal Year 2018, the 5310 program for the state of Kansas was funded in the amount of \$1,238,763.

FTA 49 U.S.C. 5304 provides funding to support cooperative, continuous and comprehensive planning for making transportation

investment decisions statewide and in nonmetropolitan areas. For Federal Fiscal Year 2018, the state of Kansas was funded in the amount of \$143,485.

FTA 49 U.S.C. 5339 provides funding to replace, rehabilitate and purchase buses and related equipment and to construct bus-related facilities. For Federal Fiscal Year 2018, the state of Kansas was funded in the amount of \$4,149,993.

Funding for the state program is available from the Coordinated Public Transportation Assistance Fund. The State Highway Fund provides \$11 million annually for needed transportation services in areas of the state lacking public transit services and to expand, improve and enhance existing services.

### **Rail Service Improvement Fund**

Many areas of the state no longer have service from Class I railroads. Short line railroads provide rail service to such areas, provide an alternative to trucks for freight (primarily grain) shippers, and keep rural areas of the state connected to the national rail network as well as national and international markets for Kansas grains and products. This alternative provides competition and helps keep shipping rates down. It also reduces the number of trucks that would otherwise be on Kansas roads and highways. This in turn avoids increased maintenance and rehabilitation costs for those roads.

The Rail Service Improvement Fund is administered by KDOT's freight and rail unit. The fund makes combination grants and loans available to short line railroads, port authorities operating in Kansas and shippers and local units of government. The low-interest, long-term (10-year) loans and grants are used primarily for track rehabilitation, capacity improvement and economic development projects. Funds may also be used for financing and acquisition activities and the purchase of rolling stock. The fund receives \$5 million annually.

### **Kansas Airport Improvement Program**

When time is of the essence, no other means of travel can fulfill time-sensitive requirements the way air transportation does. Airports serve a vital role in the state transportation system. The foremost role is to support economic activity for companies that rely on airports in their daily business.

According to the 2017 Kansas Aviation Economic Impact Study, aviation contributes more than \$20.6 billion to the Kansas economy each year, the highest per capita impact of any state. The Kansas airport system supports air ambulance access and emergency medical services in addition to: agricultural applications, charters, the National Airspace System (NAS), private air travel and other career fields.

The goals of the Kansas Airport Improvement Program (KAIP) include:

- Maintain the system's runway condition rating of "very good;"
- Minimize surface travel time to air ambulance pick-up locations;
- Improve safety, and;
- Enhance airport and community economic development appeal.

The program is open to public-use airports in Kansas as defined in K.S.A. 75-5061. Projects under this program are solicited annually to preserve or modernize facilities, to design or plan continued development and to improve or add equipment. A key element of the program is a local matching requirement of between 5 and 50 percent, which is determined by project category. In FY 2015 the program was increased from \$3 million to \$5 million per year as part of the T-Works Transportation Program. Typically, the local match results in an overall project value of \$2.8 million to \$26.9 million per year. Since its inception in FY 2000, the program has supported 569 projects at 120 public-use airports totaling more than \$113.5 million in airport improvements to the state.

#### **Unmanned Aircraft Systems**

During 2018, the Division of Aviation garnered global attention

as a leader in Unmanned Aircraft Systems (UAS) and was selected for the elite UAS Integration Pilot Program (UAS IPP). The UAS IPP is the result of a 2017 Presidential Memorandum issued to the U.S. Department of Transportation (USDOT) and signed into law during the 2018 Federal Aviation Administration (FAA) Reauthorization Act. More than 2,800 interested parties submitted 149 applications to be selected. KDOT was one of 10 lead participants to be selected.

The Kansas UAS IPP team includes more than 31 industry, state and university stakeholders focused on advancing UAS integration into the National Airspace System (NAS). The Kansas program has two projects assigned by the FAA which include Long Line Linear Infrastructure Inspection and Precision Agriculture, with the following goals:

- Advance FAA initiatives to safely integrate UAS into the National Airspace System through continued partnership;
- Grow Kansas aviation leadership by fostering statewide innovation and growth;
- Establish safe, smart processes and necessary infrastructure for continued industry development.

KDOT has received one of the few FAA Beyond Visual Line of Sight (BVLOS) Part 107 waivers that exist in the nation through participation in the program. This authorization allows KDOT to fly small UAS further and longer than current regulations permit. Current testing is focused on Detect and Avoid technology and risk mitigation needed for more complex operations in the NAS. To date, the program has flown more than 400 miles of testing operations and carried out 49 total operations in the first testing phase. Flights under the UAS IPP program will continue until Oct. 31, 2020, and will be implemented in three phases.

## **Federal Fund Exchange Program**

The federal fund exchange program is a voluntary program that allows a local public agency (LPA) to trade all or a portion of its federal funding allocation in a specific federal fiscal year with KDOT in exchange for state transportation dollars or with another LPA in exchange for their local funds.

Under this program the LPA may develop projects following local procedures, criteria, and standards. All work performed shall be consistent with the Kansas Statutes, applicable regulations, and normal engineering practices for the work being done. Any work performed on the state highway or city connecting link will require coordination with the local KDOT Area Office.

Only LPAs that are eligible to receive a federal funding allocation may participate in the federal fund exchange program. Eligible LPAs include all counties in the state and cities with populations greater than 5,000 that are not located in a Transportation Management Area (TMA). Currently the only TMAs in Kansas are the Mid America Regional Council (MARC – Kansas City Region) and the Wichita Area Metropolitan Planning Organization (WAMPO).

Participation in the program is optional. An eligible LPA may choose to exchange its federal funds or it may use the funds to develop a federal aid project following the established procedures.

In general, KDOT will annually determine the amount of state funds available for exchange at the time the federal funding is confirmed for a federal fiscal year (FFY). KDOT may conduct more frequent reviews of available funding when necessary as a result of funding or budgetary considerations. Around the beginning of each new FFY, KDOT's Bureau of Local Projects will notify the LPAs in writing of the amount they are eligible to receive for that FFY.

For more details on this program, see KDOT's website at [www.ksdot.org/burlocalproj/](http://www.ksdot.org/burlocalproj/).

# PROJECT LISTINGS

*Sections B, C, D, E*

## **This section contains the separate project lists.**

The remaining projects currently scheduled for improvement in T-Works and beyond, projects completed in FY 2018 and projects under construction. All lists are organized by county and route. Each project includes a description, project length, construction cost or estimated construction cost and work type.

K.S.A. Supp. 68-2315, as amended, requires information that includes construction work completed, construction work in progress and planned projects. A detailed explanation of the methods or criteria employed in the selection of projects is also required and may be found in this appendix in section A.

In addition to state highway construction project lists are aviation, rail, and public transit project listings.

NOTE: This section, as well as previous Annual Reports, is available on KDOT's Internet site at [www.ksdot.org/publications.asp](http://www.ksdot.org/publications.asp).

---

*The project lists are:*

- *Remaining projects currently scheduled for improvement in T-WORKS and beyond, pages B-1 to B-19.*
  - *Projects completed in FY 2018, pages C-1 to C-32.*
  - *Projects under construction, pages D-1 to D-26.*
  - *Aviation, rail and public transit projects, pages E-1 to E-5.*
-

# PROGRAM CATEGORIES

**The following is a breakdown of the subcategories within each of the Program Categories.**

---

## **SM Preservation Taking Care of What We Have**

1RR - Non Interstate Resurfacing (PMS 1R)  
BCR - Culvert Repair  
BSP - Bridge Painting  
BSR - Bridge Repair  
CMN - Contract Maintenance (PMS)  
EMR - Emergency Repair  
IRP - Interstate Basic Impr. (old RIM split to Preservation)  
ISR - Interstate Resurfacing (PMS)  
NHP - Miscellaneous for Preservation  
PBR - Bridge Replacement/Rehabilitation  
PCR - Culvert (to Bridge) Rehabilitation  
PDR - Bridge Redeck  
PMR - Pavement Marking  
RIP - Non Interstate Basic Impr (old RIM split to Preservation)  
RRS - Railroad Crossing Surfacing  
SLR - Signing & Lighting Repair and Replacement  
SOS - Highway Signing  
SRR - State Route Removal Program

## **MM Modernization Safety & Shoulder Improvements**

IRS - Resurfacing w/Improvements (Practical Design)  
COR - Corridor Management  
GFU - Guard Fence Upgrades (retired)  
GSI - General Safety Improvement Projects  
IRI - Interstate Roadway Geometric Improvements  
KCC - KCC Railroad Crossing Projects  
LTG - Highway Lighting  
MPR - Miscellaneous  
OVC - Oil Overcharge (retired)

## **MM Modernization Safety & Shoulder Improvements**

RIM - Non Interstate Geometric Improvements  
SAF - Safety Projects (State)  
SBW - Scenic Byway

## **SE Expansion/Enhancement Adding Something New**

AAR - Advanced Acquisition of ROW  
EDP - Economic Development  
IRC - Interstate Capacity Improvement (old IRI split to Expansion)  
ITS - Intelligent Transportation Systems (ITS)  
RIC Non-Interstate Capacity Improvement (old RIM split to Exp.)  
RSL - Local Partnership Railroad Grade Separations  
RSP New Railroad Grade Separations (State)  
SEB System Enh. - Bypasses (retired)  
SEC System Enh. - Corridors (retired)  
SEI System Enh. - Interchanges/Separations (retired)  
SEW System Enh. - Wichita Railroad Crossings (retired)

## **LC Local Construction**

HAZ - Safety Projects (HSIP, off system)  
HES - Safety Projects (HSIP, on system)  
K1R - KLINK Surface Preservation  
K2R - KLINK Pavement Restoration  
K3R - Geometric Improvements for KLINKs  
LBT - Local Bridge Transfer Program  
LOC - Local Construction (Local Administered & Let)  
RES - Local Construction (KDOT Administered & Let)  
RRX - Railroad Crossing Protection (HSIP, on system)  
RXR - Railroad Crossing Protection (HSIP, off system)  
SRT - Safe Routes To Schools (Federal)  
TEX - Transportation Enhancement Program

## REMAINING PROJECTS SCHEDULED FOR IMPROVEMENT IN (FY 2019 - 2024)

County	Route	Location Description	Length (Miles)	Type of Work	Est FY Const. Cost (1,000's)	Prog Cat AND Subcat	Fiscal Year
Allen		BRIDGE OVER WOLF PEN CREEK ON LOCAL ROAD 24.9-S.0 LOCATED 3.4 MILES EAST AND 1.0 MILE SOUTH OF ELSMORE	0.1	Bridge Replacement	371	LC-RES	2020
Allen	U169	BRIDGE #045 ON U.S. 169 LOCATED AT THE NEOSHO/ALLEN COUNTY LINE	0.0	Bridge Repair	160	SM-BSR	2019
Anderson	U059	U.S. 59 FROM THE NORTH CITY LIMITS OF GARNETT NORTH TO THE ANDERSON/FRANKLIN COUNTY LINE	6.8	Guard Fence	105	SM-1RR	2019
Atchison		5TH STREET FROM U STREET TO PARK STREET IN ATCHISON	0.5	Pedestrian and Bicycle Paths	569	LC-SRT	2019
Atchison		ALONG 2ND STREET FROM COMMERCIAL STREET TO DIVISION STREET IN ATCHISON	0.7	Landscaping and Beautification	824	LC-TEX	2019
Atchison	K007	COUNTRY CLUB ROAD BETWEEN NORTH 17TH STREET AND DIVISION STREET AND K-7 FROM COUNTRY CLUB ROAD TO NORTH CITY LIMITS IN ATCHISON	1.0	Milling and Overlay	406	LC-K1R	2020
Atchison	K007	K-7 BETWEEN 10TH STREET AND 12TH STREET IN ATCHISON	0.2	Curb and Gutter New, Repair or Replace	509	MM-COR	2019
Barton		KANDAS AND OKLAHOMA RAILROAD CROSSING AND LINCOLN STREET IN GREAT BEND	-	Flashing Light Signal	250	LC-RXR	2019
Barton		VARIOUS MAJOR COLLECTOR ROADS IN THE NORTH HALF OF THE COUNTY	71.0	Signing	153	LC-RES	2020
Barton	K156	BRIDGE #094 ON K-156 LOCATED AT THE K-4/ K-156 JUNCTION	0.0	Bridge Repair	230	SM-BSR	2019
Barton	U056	10TH STREET FROM HICKORY STREET TO 1300 FEET WEST OF KIOWA ROAD IN GREAT BEND	0.5	Milling and Overlay	412	LC-K1R	2019
Barton	U056	TENTH STREET AND GRANT STREET INTERSECTION IN GREAT BEND	0.1	Intersection Improvement	970	LC-K3R	2019
Barton	U281	BRIDGE #016 ON U.S. 281 LOCATED 2.52 MILES NORTH OF U.S. 56/ K-156/ K-96 JUNCTION	0.0	Bridge Replacement	505	SM-PBR	2020
Brown		PROVIDE FUNDS TO THE KICKAPOO TRIBE IN KANSAS	0.0	Funds Only	0	LC-LOC	2019
Brown	U073	WALNUT CREEK BRIDGE ON U.S. 73 LOCATED 10 MILES NORTH OF THE U.S. 73/ U.S. 36 JUNCTION	0.0	Bridge Replacement	3,228	SM-PBR	2020
Butler		159TH STREET EAST OVER THE KANSAS TURNPIKE IN ANDOVER	0.3	Bridge	2,142	LC-RES	2020
Butler		BRIDGE OVER FOUR MILE CREEK LOCATED 2.8 MILES EAST AND 3.0 MILES SOUTH OF ANDOVER	0.3	Bridge Replacement	811	LC-RES	2020
Butler		BUTLER ROAD (RS 72) FROM NORTH EDGE OF K-254 TO 500 FEET NORTH OF SOUTHWEST/ NORTHWEST PARALLEL ROAD	2.2	Grade and Surfacing	2,359	LC-RES	2020
Butler		EAST PARK IN THE CITY OF EL DORADO	0.8	Pedestrian and Bicycle Paths	522	LC-TEX	2019
Butler		UNION PACIFIC RAILROAD AND NORTHWEST 100TH STREET NORTH OF WHITEWATER	-	Flashing Light Signal	300	LC-RXR	2020

Blanks in the Const. Cost column indicate that the project does not have a construction work phase.

A breakdown of the Program Cat and Subcat column is provided preceding the project lists.

County	Route	Location Description	Length (Miles)	Type of Work	Est FY Const. Cost (1,000's)	Prog Cat AND Subcat	Fiscal Year
Butler	U054	BRIDGES #118 AND #119 ON U.S. 54 LOCATED 0.4 MILE EAST OF WEST U.S. 77/ U.S. 54 JUNCTION	0.0	Bridge Repair	565	SM-BSR	2019
Butler	U077	BRIDGE #153 ON U.S. 77 LOCATED 13.8 MILES NORTH OF THE BUTLER/ COWLEY COUNTY LINE	0.0	Bridge Repair	110	SM-BSR	2019
Butler	U077	BRIDGE #172 (WALNUT RIVER DRAINAGE) ON U.S. 77 LOCATED 5.12 MILES NORTH OF I-35	0.0	Bridge Repair	190	SM-BSR	2019
Chase	K177	BRIDGE #024 ON K-177 LOCATED 3.33 MILES NORTH OF U.S. 50	0.0	Bridge Replacement	1,986	SM-PBR	2020

## Kansas Airport Improvement Program Project Summary by County - FY 2019

County	City	Project	Total Cost	State Funds	Local Funds
Barber	Medicine Lodge	Install Fuel Farm (100LL with card reader )	\$128,500.00	\$109,225.00	\$19,275.00
Barton	Great Bend	Mill and overlay north 2,351'x100' of Runway 17/35 with lights & signs rehabilitation	\$550,102.22	\$495,091.00	\$55,011.22
Bourbon	Fort Scott	Upgrade AWOS III to AWOS III-PT to new runway ends	\$121,178.00	\$109,060.20	\$12,117.80
Bourbon	Fort Scott	Relocate Runway 18-36 PAPI & REIL	\$197,180.00	\$177,462.00	\$19,718.00
Brown	Hiawatha	Airport Development Plan Ph I & II	\$65,000.00	\$61,750.00	\$3,250.00
Butler	Benton	Taxiway Replacement - Replace approx 5,2000 SF of asphalt with 6" concrete	\$244,000.00	\$216,198.00	\$27,802.00
Cheyenne	Saint Francis / Cheyenne Co.	Utility installation for new hangars	\$38,000.00	\$34,200.00	\$3,800.00
Cheyenne	Saint Francis / Cheyenne Co.	Card reader for fuel pump	\$20,000.00	\$17,000.00	\$3,000.00
Cowley	Winfield/ Arkansas City	Design new taxilanes for new 10 unit T-hangar	\$40,000.00	\$38,000.00	\$2,000.00
Decatur	Oberlin	Replace failed AWOS Ceilometer	\$27,790.00	\$25,011.00	\$2,779.00
Douglas	Baldwin City/ Vinland	Fuel System Upgrades	\$28,200.00	\$23,970.00	\$4,230.00
Gove	Quinter	Airport GIS Survey	\$100,000.00	\$95,000.00	\$5,000.00
Gray	Cimarron	Install Fueling System	\$130,000.00	\$110,500.00	\$19,500.00
Greenwood	Eureka	Replace AWOS	\$122,414.00	\$110,172.60	\$12,241.40
Harper	Harper	Obstruction mitigation to approach surfaces of Runway 17, 12 & 30	\$96,800.00	\$87,120.00	\$9,680.00

## Kansas Airport Improvement Program Project Summary by County - FY 2019

County	City	Project	Total Cost	State Funds	Local Funds
Kearney	Lakin/ Kearny Co.	Preliminary design for new runway & ALP update	\$115,789.47	\$110,000.00	\$5,789.47
Linn	Pleasanton	Install solar runway edge lights and PAPI systems	\$215,000.00	\$193,500.00	\$21,500.00
Marion	Marion	Airport Development Planning	\$45,000.00	\$42,750.00	\$2,250.00
Marion	Marion	Land Acquisition for airport development (40 ac)	\$136,000.00	\$122,400.00	\$13,600.00
McPherson	Moundridge	Relocate taxiway and construct new taxilanes	\$250,000.00	\$225,000.00	\$25,000.00
Saline	Salina	Ramp Reconstruction, Ph 1, West	\$800,000.00	\$720,000.00	\$80,000.00
Sedgwick	Rose Hill	Crack fill/seal all pavement	\$10,000.00	\$9,000.00	\$1,000.00
Sedgwick	Rose Hill	Aviation Training Facility	\$680,845.00	\$612,760.50	\$68,084.50
Sheridan	Hoxie/ Sheridan Co.	Reconstruct Runway 17-35	\$880,000.00	\$660,000.00	\$220,000.00
Stanton	Johnson City/ Stanton Co.	Reconstruct a portion of asphalt taxilane east of hangars	\$303,335.00	\$273,001.50	\$30,333.50
Sumner	Wellington	Design GA apron reconstruction improvement	\$75,000.00	\$71,250.00	\$3,750.00

## Rail Service Improvement Fund

Many areas of the state no longer have service from Class I railroads. Short line railroads provide rail service to such areas, provide an alternative to trucks for freight (primarily grain) shippers, and keep rural areas of the state connected to the national rail network as well as national and international markets for Kansas grains and products. This alternative provides competition and helps keep shipping rates down. It also reduces the number of trucks that would otherwise be on Kansas roads and highways. This in turn avoids increased maintenance and rehabilitation costs for those roads.

The Rail Service Improvement Fund is administered by KDOT's freight and rail unit. The fund makes available to short line railroads and port authorities operating in Kansas, and shippers and local units of government in coordination with the serving railroad, low-interest, long-term (10-year) loans and grants to be used primarily for track rehabilitation, capacity improvement and economic development projects. Funds may also be used for financing and acquisition activities and the purchase of rolling stock.

Included in the list below are projects completed in FY 2018, FY 2019 projects still in progress and new projects with signed agreements.

Project Number	Rail Line Segment	Grant Amount	Loan Amount	Project Description
RF-0049-01	K & O Railroad	\$ 3,000,000.00		Construction and rehabilitation of rail line at Great Bend Transload facility.
63 RF-0052-01	SKO Railroad	379,967.40	\$ 506,623.20	Construction of new 11,000 foot connection track at Coffeville.
63 RF-0055-01	SKO Railroad	362,551.80	483,402.40	Replacement of two switches and rail at Cherryvale. (completed in FY 19)
69 RF-0056-01	Kyle Railroad	326,085.00	434,780.00	Installation of 10,000 new ties; ballast and surfacing.
28 RF-0054-01	Garden City Western	93,943.50	125,258.00	Replacement of three swiches and track rehabilitation.
87 RF-0058-01	Element/KO	1,020,431.43	1,360,575.24	Construction of new industry track at new ethanol facility in Colwich.
5 RF-0059-01	K & O Railroad	165,567.90	220,757.20	Extension of industry track at Abert, KS co-op.

## State/Federal Public Transit Programs - Contracts
