

# APPENDIX

to the

## KANSAS DEPARTMENT OF TRANSPORTATION'S

### 2020 Annual Report

---

*This appendix contains additional transportation information including:*

- Financial Compliance
- Project Selection Criteria
- Project list detailing projects currently scheduled for improvement, projects completed in FY 2019 and projects under construction. Also list of aviation, rail and public transit projects.
- Transportation Revolving Fund
- Modal Information
- Federal Fund Exchange Program

*Section A*

### ***Financial Compliance***

Each year, the Department provides financial information to the Governor and Legislature. This information includes both a summary of financial information and a statement of assurance that a Comprehensive Annual Financial Report (CAFR) of all funds for the preceding year has been prepared. The financial report must include a report by independent public accountants attesting that the financial statements present fairly the financial position of the Department in conformity with generally accepted accounting principles (GAAP).

The Department has prepared a CAFR for Fiscal Year (FY) 2019. A report of the independent public accountants,

CliftonLarsonAllen, LLP, is included in the CAFR after audit completion. Also included in the CAFR is a certificate of achievement awarded to the Department for excellence in financial reporting for the FY 2018 CAFR. This award marks the 31th consecutive year that the Department has received the award.

The complete CAFR is available by contacting the Department's Office of Public Affairs at 785-296-3585 (Voice)/(TTY). The FY 2019 CAFR is available under the KDOT Financial Disclosures section of the Department's website at <http://www.ksdot.org/bureaus/burFiscal/default.asp>.

# FY 2019 Financial Information

The following schedule is a summary of revenues and expenditures for all funds for FY 2019. All amounts are in thousands.

	<u>2019</u>	<u>Percent of Total</u>
<b><u>REVENUES</u></b>		
Motor Fuel Taxes	\$ 461,838	27 %
Vehicle Registrations and Permits	223,273	13
Intergovernmental	444,494	25
Sales and Use Taxes	532,756	31
Investment Earnings	15,109	1
Other	8,752	0
Transfers from		
Other State Funds	51,226	3
Total revenues	<u>1,737,448</u>	<u>100 %</u>

## **EXPENDITURES**

Current Operating		
Maintenance	129,930	8 %
Preservation	333,429	20
Modernization	43,025	3

	<u>2019</u>	<u>Percent of Total</u>
Expansion and enhancement	77,266	5 %
Communications system	5,415	0
Local Support	237,826	15
Transportation planning and modal support	73,566	4
Administration	47,319	3
Debt Service		
Principal	116,635	7
Interest and fees	93,991	6
Transfers to Other		
State Funds	473,872	29
Total expenditures	<u>1,632,274</u>	<u>100 %</u>
<b><u>OTHER SOURCES (uses)</u></b>		
Sale of assets	1,982	1
Revenue Bond Proceeds	173,035	86
Premium on Issuance of Debt	26,962	13
Total other	<u>201,979</u>	<u>100 %</u>
Excess (Deficiency) of Revenues and Other Sources Over Expenditures	<u>307,153</u>	<u>100 %</u>

## ***Project Selection Criteria***

Fiscal Year 2020 begins the 10th and final year of the 10-year transportation program enacted by the Kansas Legislature in May 2010. As the T-WORKS program draws to completion members from the legislature, Kansas Department of Transportation (KDOT) leadership and local stakeholders are jointly exploring the future of transportation in Kansas, beginning in 2018 with the “Joint Legislative Transportation Vision Task Force” meetings that identified at a high level transportation needs facing Kansas and continuing in the fall of 2019 with local consult meetings held across the State to refine and expand upon the ideas identified in the Vision Task Force meetings. Through these vital planning processes KDOT will ensure their ability to deliver high-quality transportation infrastructure to Kansans and to respond to emerging transportation needs.

Although exploration and development of the next transportation program is underway, KDOT is committed to the execution of the remaining T-WORKS projects which have priority and will be addressed as funding sources become available. KDOT leadership employs many tools in the development and execution of a transportation program and project selection process beginning with the guidance from two key plans. The 2008 Long-Range Transportation Plan (LRTP) and the newly developed Transportation Asset Management Plan (TAMP) which provides a detailed assessment of current infrastructure and the effort and funding levels needed to maintain said infrastructure. Together the LRTP and TAMP, provide direction and focus for KDOT management establishing a framework for day-to-day decision-making processes. Under T-WORKS, KDOT developed a more strategic approach to highway project selection than the previously used method which based project selection solely on engineering factors. While engineering factors still play an important role in project selections, they are augmented with economic impact evaluations and/or local input in two of the primary programs. This broader approach for project selection developed for T-WORKS will be utilized in the next transportation program as well. Additionally,

under T-WORKS the timing of projects selected for construction for the larger scale Preservation projects was altered to selections on a 2-year rolling basis, to provide greater programming flexibility. Prior to T-WORKS in past programs, all major projects were selected once at the start of each program. Extending project selections over the life of a program increases KDOT’s responsiveness to changing roadway conditions and emerging needs as they arise. This method of selection is anticipated to continue in the next program. By implementing these project selection changes, KDOT has developed greater stakeholder input, gained more flexibility in project selection and increased maneuverability to respond to the prevailing economic conditions.

Under T-WORKS and as anticipated in the next program construction projects are categorized into four core groups: Preservation, Modernization, Expansion and Local Construction. These four core programs group construction projects with similar work types and scopes together. Projects within each of these major programs are further grouped together based upon similar funding sources or project-types into more specific groups or subcategories. In the new project selection process, there are evaluation criterion applied for project selections in the core programs.

For the Preservation program, engineering factors are an effective evaluation method for project selection and remain the sole factor used for selecting projects in this program. However, in the Modernization and Expansion programs, engineering factors are augmented with other factors. In the Modernization program, project selection combines historically strong engineering-based formulas with regional priorities and in the Expansion program, project selections combine engineering factors with regional priorities and economic impacts. In each of the programs, proposed projects are scored and ranked based upon how well the proposed projects address the relevant evaluation criteria. Then, selections are made based upon the combined information. The addition of these new factors helps ensure that a project is not only a sound engineering project but is also a project that aligns with the goals and priorities of a region and in the case of

expansion projects provides economic benefits. Project selection for the fourth core program, Local Construction, remains unchanged and is determined at the local level by local entities throughout the state with the coordination of KDOT’s Bureau of Local Projects.

Engineering factors for the preservation, modernization and expansion programs are evaluated using the engineering-based formulas KDOT already has established. Regional priorities are determined through local-consult meetings held throughout the state with the most recent held this fall. Through these meetings and through the continued interaction between the area and district engineers with local entities, KDOT maintains a dialogue with stakeholders throughout the state concerning regional focus and priorities. The third factor, economic impact is assessed by the agency through computer modeling. Modeling estimates the potential increases in jobs, income and economic output for a region resulting from a specific transportation improvement.

The chart below illustrates the selection criteria applied to T-WORKS projects in each of the four core programs and the weight given to each criterion.

The Preservation program protects the public’s investment in its highway system by maintaining the “as built” condition of roads and bridges. This is a diverse group that includes both larger scale projects like roadway surfacing rehabilitations, major bridge repairs, full

pavement and bridge replacements to smaller set-aside projects like minor bridge repairs, resurfacing, patching and seals.

The engineering factors used when selecting preservation projects relate to the pavement and bridge conditions, like remaining pavement life, rutting, and cracking for roads and joint or bridge deck condition and/or load ratings for bridges. Roads and bridges are evaluated on an annual basis and projects are selected each year based upon this review. Additionally, within the preservation program, are a group of “other” set-aside projects that are unrelated to road condition but, rather, address such issues as signing, pavement markings and railroad crossing surfaces. Set-aside projects are so named because the funds to perform the work is “set aside” or reserved specifically for the type of work designated by the set-aside subcategory. The “other” set-aside group of projects are generally federally funded while the road and bridge set-aside projects were traditionally state funded. Recently, however, federal funds have been applied to the road and bridge set-aside projects as well. The road, bridge and other set-aside group of projects are selected on an annual basis while the larger scale preservation projects use the rolling two-year selection process discussed previously. Since most projects in the Preservation program are selected annually and the work involved rarely requires more than one season to complete, the majority of the preservation projects listed in this report are for work to be performed in fiscal year 2020.

Selecting and programming the set-aside projects in the Preservation program on an annual basis allows KDOT to maintain flexibility and responsiveness in their project selection process during T-WORKS and this approach is anticipated to continue with the next transportation program.

The second core program, Modernization, focuses on improvements to the existing system. Projects under this program are designed to enhance safety and/or improve roadways by adding shoulders, flattening hills, straightening curves and upgrading intersections on already existing roadways. In May 2011, the final selection of the “major”

## T-WORKS Project Selection Criteria

Program	Engineering Factors	Regional Priorities	Economic Impact	Other
Preservation	100%			
Modernization	80%	20%		
Expansion	50%	25%	25%	
Local Construction				100%

modernization projects to be completed under T-WORKS was made. These projects were then jointly announced in late May and June 2011 by the Governor and Secretary of Transportation. The scopes of the “major” or more complex modernization projects require selections to be made early in the transportation program to ensure that there is sufficient time for the design and construction of the project during the program period. Presently, some of the previously programmed Modernization projects for 2018, 2019 and 2020 have been delayed, but these delayed projects are a priority and as funding becomes available delayed projects are being let to construction.

Also included within the modernization program are the practical improvement projects which are developed out of the preservation program annual review of roads and bridges and the smaller scale set aside projects. Projects within the practical improvement umbrella are hybrids with elements of both the preservation and the modernization programs. However, the projects have greater complexity and scope than preservation projects making them a better fit for the modernization program. In contrast to other modernization projects, practical improvement projects are not selected in advance but rather are selected on a need basis as determined from the annual review of roads. Project scope pertaining to shoulder improvement is an example of the type of work that is a good candidate for the practical improvement approach. By employing the practical improvement approach, a project may be completed in the most cost-efficient manner feasible. The implementation of this approach enables KDOT to stretch construction dollars and provide the greatest benefit possible for the dollars spent. Projects in the five set aside program subcategories included in the Modernization program- corridor, lighting, and three safety related address issues like corridor development and smaller safety improvements like adding turn lanes or intersection improvements and lighting. The set-aside projects like the practical improvement projects are selected on an annual basis. A small portion of modernization funding has been reserved to fund the practical improvement projects and set aside projects as

they are identified in the final year of T-WORKS and this approach is anticipated to be utilized in the next program as well.

The Expansion program, the third principal group under T-WORKS, is intended for projects that expand and enhance the transportation system. Projects in this program concentrate on improving capacity by adding new lanes or interchanges, reducing commute time and improving air quality by relieving congestion and enhancing economic development in a region by selecting projects with high economic impact. The expansion program, with the exception of the three subcategories the cost share program, the economic development program and the intelligent transportation systems set aside, were selected in early FY 2011 and announced by the Governor and Secretary of Transportation in May and June 2011. Due to the complex nature of the Expansion program projects, early selection is crucial to ensure sufficient planning, design and construction time during the T-WORKS program period. At this time, some of the previously selected and programmed Expansion projects for 2018, 2019 and 2020 have been delayed. However, these delayed projects are a priority and as funding becomes available delayed projects are being resumed.

To maintain some flexibility in scheduling in the expansion program, the economic development , intelligent transportation and cost share subcategories of projects are managed a little differently. The economic development projects are selected on an ongoing basis throughout a transportation program as good candidate projects are put forth. The new cost share program develops projects in a manner similar to the economic development program with applications for projects accepted on an ongoing basis with a review of applications twice a year and project selections made to the extent funding allows. The intelligent transportation systems projects are selected on an annual basis. In this way, the agency has the ability to respond to new conditions as they arise in the Expansion program throughout the remainder of the T-WORKS program and into the next transportation program.

The fourth group, the Local Construction program, focuses on improvements to city or county roads. The work encompassed by this program is varied in nature ranging from safety oriented, to maintenance of existing roadway, to small-scale expansion type projects. Regardless of the project focus, the common denominator for all projects is that the work is on a city or county road. Many of the subcategories within the Local Construction program like the K1R-City Connecting Link Resurfacing (KLINK) program and TEX- Transportation Enhancement program to name only two are partnership programs in which KDOT or the federal government partner with local entities to share the costs and enable local dollars to stretch further. To generate candidate projects, many partnership programs employ a solicitation process in which prospective projects are solicited through an application process. The pool of project applications is prioritized based upon program specific criteria. Then, projects are evaluated, selected and programmed until the available funds are expended. The schedule for project solicitation varies but most of the partnership programs solicit projects on an annual basis. In other subcategories within the local construction program, the locals are solely responsible for project selection and development. To assist local entities in their selection process KDOT makes available bridge inspection data, traffic accident data and traffic count data among other resources. In KDOT, the Bureau of Local Projects is the primary point of contact for local construction. Detailed information concerning the local construction program and specifically the partnership programs is located on the T-WORKS website, the link is provided below.

For an in depth look at the entire T-WORKS program including those projects in the core programs, KDOT has established a website that provides information about all projects selected. This website is a continued effort on KDOT's part to increase transparency and gain greater stakeholder input. This website is where information about projects happening by a region or information about individual projects across the state may be obtained. Contact information is provided for each region and project if further details are needed. The

T-WORKS website is located at the following link <http://kdotapp.ksdot.org/TWorks/>. A similar website is anticipated to be implemented for the next transportation program.

## ***Project Listings***

The project listings can be found starting on page B-1.

## ***Transportation Revolving Fund***

The Transportation Revolving Fund was a statewide revolving loan fund that provided loans to local units of government for financing road and bridge improvements on and off the State Highway System. Since August 2004, the fund provided 119 executed loans totaling \$141.7 million to 58 cities and counties. KDOT is currently reviewing the status of the TRF program.

## ***Modal Information***

### **Public Transportation**

Public transportation in Kansas is supported by a state program and multiple Federal Transit Administration (FTA) funding programs authorized by the FAST Act. These funding programs, which are augmented by local match, provide the funding for 78 rural general public transit service providers, 64 transit providers that service elderly persons and persons with disabilities throughout the state, and six urban transit properties. Without these programs, many citizens would have no access to public transportation.

The FTA 49 U.S.C. 5311 program provides capital, planning, and operating assistance to states to support rural and small urban (under 50,000 population) transportation projects that serve the general public. For Federal Fiscal Year 2019, the 5311 program for the state of Kansas was funded in the amount of \$11,886,969.

The FTA 49 U.S.C. 5310 program is intended to enhance mobility

for seniors and persons with disabilities by providing funds for programs to serve the special needs of transit-dependent populations beyond traditional public transportation services and Americans with Disabilities Act (ADA) complementary paratransit services. Urbanized areas and nonurban areas with populations under 200,000 are eligible for 5310 funds. For Federal Fiscal Year 2019, the 5310 program for the state of Kansas was funded in the amount of \$2,280,602.

FTA 49 U.S.C. 5304 provides funding to support cooperative, continuous and comprehensive planning for making transportation investment decisions statewide and in nonmetropolitan areas. For Federal Fiscal Year 2019, the state of Kansas was funded in the amount of \$146,663.

FTA 49 U.S.C. 5339 provides funding to replace, rehabilitate and purchase buses and related equipment and to construct bus-related facilities. For Federal Fiscal Year 2019, the state of Kansas was funded in the amount of \$4,149,993.

Funding for the state program is available from the Coordinated Public Transportation Assistance Fund. The State Highway Fund provides \$11 million annually for needed transportation services in areas of the state lacking public transit services and to expand, improve and enhance existing services.

## **Rail Service Improvement Fund**

Many areas of the state no longer have service from Class I railroads. Short line railroads provide rail service to such areas, provide an alternative to trucks for freight (primarily grain) shippers, and keep rural areas of the state connected to the national rail network as well as national and international markets for Kansas grains and products. This alternative provides competition and helps keep shipping rates down. It also reduces the number of trucks that would otherwise be on Kansas roads and highways. This in turn avoids increased maintenance and rehabilitation costs for those roads.

The Rail Service Improvement Fund is administered by KDOT's freight and rail unit. The fund makes combination grants and loans

available to short line railroads, port authorities operating in Kansas and shippers and local units of government. The low-interest, long-term (10-year) loans and grants are used primarily for track rehabilitation, capacity improvement and economic development projects. Funds may also be used for financing and acquisition activities and the purchase of rolling stock. The fund receives \$5 million annually.

## **Kansas Airport Improvement Program**

When time is of the essence, no other means of travel can fulfill time-sensitive requirements the way air transportation does. Airports serve a vital role in the state transportation system. The foremost role is to support economic activity for companies that rely on airports in their daily business.

According to the 2017 Kansas Aviation Economic Impact Study, aviation contributes more than \$20.6 billion to the Kansas economy each year, the highest per capita impact of any state. The Kansas airport system supports air ambulance access and emergency medical services in addition to: agricultural applications, charters, the National Airspace System (NAS), private air travel and other career fields.

The goals of the Kansas Airport Improvement Program (KAIP) include:

- Maintain the system's runway condition rating of "very good;"
- Minimize surface travel time to air ambulance pick-up locations;
- Improve safety, and;
- Enhance airport and community economic development appeal.

The program is open to public-use airports in Kansas as defined in K.S.A. 75-5061. Projects under this program are solicited annually to preserve or modernize facilities, to design or plan continued development and to improve or add equipment. A key element of the program is a local matching requirement of between 5 and 50 percent, which is determined by project category. In FY 2015 the program was increased from \$3 million to \$5 million per year as part of the T-Works Transportation Program. Typically, the local match results in an overall project value of \$2.8 million to \$26.9 million per year.

Since its inception in FY 2000, the program has supported 611 projects at 119 public-use airports totaling more than \$118.9 million in airport improvements to the state.

### **Unmanned Aerial Systems**

During 2018, the Division of Aviation garnered global attention as a leader in Unmanned Aircraft Systems (UAS) and was selected for the elite UAS Integration Pilot Program (UAS IPP). The UAS IPP is the result of a 2017 Presidential Memorandum issued to the U.S. Department of Transportation (USDOT) and signed into law during the 2018 Federal Aviation Administration (FAA) Reauthorization Act. More than 2,800 interested parties submitted 149 applications to be selected. KDOT was one of 10 lead participants to be selected.

The Kansas UAS IPP team includes more than 31 industry, state and university stakeholders focused on advancing UAS integration into the National Airspace System (NAS). The Kansas program has two projects assigned by the FAA which include Long Line Linear Infrastructure Inspection and Precision Agriculture, with the following goals:

- Advance FAA initiatives to safely integrate UAS into the National Airspace System through continued partnership;
- Grow Kansas aviation leadership by fostering statewide innovation and growth;
- Establish safe, smart processes and necessary infrastructure for continued industry development.

KDOT has received one of the few FAA Beyond Visual Line of Sight (BVLOS) Part 107 waivers that exist in the nation through participation in the program. This authorization allows KDOT to fly small UAS further and longer than current regulations permit. Current testing is focused on Detect and Avoid technology and risk mitigation needed for more complex operations in the NAS. To date, the program has flown more than 1,150 miles of testing operations and carried out 200 total operations in the first testing phase. Flights under the UAS IPP program will continue until Oct.31, 2020, and will be implemented in three phases.

### **Federal Fund Exchange Program**

The federal fund exchange program is a voluntary program that allows a local public agency (LPA) to trade all or a portion of its federal funding allocation in a specific federal fiscal year with KDOT in exchange for state transportation dollars or with another LPA in exchange for their local funds.

Under this program the LPA may develop projects following local procedures, criteria, and standards. All work performed shall be consistent with the Kansas Statutes, applicable regulations, and normal engineering practices for the work being done. Any work performed on the state highway or city connecting link will require coordination with the local KDOT Area Office.

Only LPAs that are eligible to receive a federal funding allocation may participate in the federal fund exchange program. Eligible LPAs include all counties in the state and cities with populations greater than 5,000 that are not located in a Transportation Management Area (TMA). Currently the only TMAs in Kansas are the Mid America Regional Council (MARC – Kansas City Region) and the Wichita Area Metropolitan Planning Organization (WAMPO).

Participation in the program is optional. An eligible LPA may choose to exchange its federal funds or it may use the funds to develop a federal aid project following the established procedures.

In general, KDOT will annually determine the amount of state funds available for exchange at the time the federal funding is confirmed for a federal fiscal year (FFY). KDOT may conduct more frequent reviews of available funding when necessary as a result of funding or budgetary considerations. Around the beginning of each new FFY, KDOT's Bureau of Local Projects will notify the LPAs in writing of the amount they are eligible to receive for that FFY.

For more details on this program, see KDOT's website at [www.ksdot.org/burlocalproj/](http://www.ksdot.org/burlocalproj/).

# PROJECT LISTINGS

*Sections B, C, D, E*

## **This section contains the separate project lists.**

The remaining projects currently scheduled for improvement in T-Works and beyond, projects completed in FY 2019 and projects under construction. All lists are organized by county and route. Each project includes a description, project length, construction cost or estimated construction cost and work type.

K.S.A. Supp. 68-2315, as amended, requires information that includes construction work completed, construction work in progress and planned projects. A detailed explanation of the methods or criteria employed in the selection of projects is also required and may be found in this appendix in section A.

In addition to state highway construction project lists are aviation, rail, and public transit project listings.

NOTE: This section, as well as previous Annual Reports, is available on KDOT's Internet site at [www.ksdot.org/publications.asp](http://www.ksdot.org/publications.asp).

---

*The project lists are:*

- *Remaining projects currently scheduled for improvement in T-WORKS and beyond, pages B-1 to B-22.*
  - *Projects completed in FY 2019, pages C-1 to C-18.*
  - *Projects under construction, pages D-1 to D-27.*
  - *Aviation, rail and public transit projects, pages E-1 to E-5.*
-

# *PROGRAM CATEGORIES*

**The following is a breakdown of the Programs and Sub-Categories that are shown in the Project Listing.**

## **SM- Preservation--Taking Care of What We Have**

1RR- Non-Interstate Resurfacing (PMS 1R)  
BCR- Culvert Repair  
BSP- Bridge Painting  
BSR- Bridge Repair  
CMN- Contract Maintenance (PMS)  
EMR- Emergency Repair  
IRP- Interstate Basic Impr (old RIM split to Preservation)  
ISR- Interstate Resurfacing (PMS)  
NHP- Miscellaneous for Preservation  
PBR- Bridge Replacement/Rehabilitation  
PCR- Culvert (to Bridge) Rehabilitation  
PDR- Bridge Redeck  
PMR- Pavement Marking  
RIP- Non-Interstate Basic Impr (old RIM split to Preservation)  
RRS- Railroad Crossing Surfacing  
SLR- Signing & Lighting Repair and Replacement  
SOS- Highway Signing  
SRR- State Route Removal Program

## **MM- Modernization--Safety & Shoulder Improvements**

IRS- Resurfacing w/Improvements (Practical Design)  
COR- Corridor Management  
GFU- Guard Fence Upgrades  
GSI- General Safety Improvement Projects  
ICT- Innovative Connected Technologies  
IRI- Interstate Roadway Geometric Improvements  
KCC- KCC Railroad Crossing Projects  
LTG- Highway Lighting  
MPR- Miscellaneous

## **MM- Modernization--Safety & Shoulder Improvements**

RIM- Non-Interstate Geometric Improvements  
SAF- Safety Projects (State)  
SBW- Scenic Byway  
SSI- Strategic Safety Improvement Program

## **SE- Expansion/Enhancement--Adding Something New**

AAR- Advanced Acquisition of ROW  
CSP- Cost Share Program  
EDP- Economic Development  
IRC- Interstate Capacity Improvement (old IRI split to Expansion)  
ITS- Intelligent Transportation Systems (ITS)  
RIC- Non-Interstate Capacity Improvement (old RIM split to Expansion)  
RSL- Local Partnership Railroad Grade Separations  
RSP- New Railroad Grade Separations (State)

## **LC- Local Construction**

HAZ- Safety Projects (HSIP, off-system)  
HES- Safety Projects (HSIP, on-system)  
K1R- KLINK Surface Preservation  
K2R- KLINK Pavement Restoration  
K3R- Geometric Improvements for KLINKs  
LBT-Local Bridge Transfer Program  
LOC- Local Construction (Local Administered & Let)  
RES- Local Construction (KDOT Administered & Let)  
RRX- Railroad Crossing Protection (HSIP, on-system)  
RXX- Railroad Crossing Protection (HSIP, off-system)  
SRT- Safe Routes To Schools (Federal)  
TEX- Transportation Enhancement Program

## REMAINING PROJECTS SCHEDULED FOR IMPROVEMENT IN (FY 2020 - 2025)

County	Route	Location Description	Length (Miles)	Type of Work	Est FY Const. Cost (1,000's)	Prog Cat AND Subcat	Fiscal Year
Allen	U054	BRIDGE #013 ON US-54 LOCATED 0.24 MILES EAST OF US-59	-	Bridge Replacement	3,740	SM-PBR	2021
Anderson	K031	K-31 BEGINNING AT SOUTH JUNCTION US-59/K-31 EAST TO THE ANDERSON/LINN COUNTY LINE	5.0	Milling And Overlay	381	SM-IRR	2020
Anderson	U059	S MAPLE STREET (US-59) FROM W 4TH AVENUE TO KS-31/W PARK ROAD	0.5	Pavement Reconstruction	1,211	LC-K2R	2022
Anderson	U059	US-59 IN ANDERSON COUNTY LOCATED AT JUNCTION US-59/US-169	-	Intersection Improvement	2,282	MM-SAF	2022
Atchison		BRIDGE LOCATED ON 246TH ROAD, 2.0 MILES S & 2.4 MILES E OF EFFINGHAM, OVER TRIBUTARY TO STRANGER CREEK	0.1	Bridge Replacement	202	LC-LBT	2022
Atchison		MAJOR COLLECTORS IN ATCHISON COUNTY	30.0	Signing	133	LC-RES	2021
Atchison	K116	K-116 IN ATCHISON COUNTY BEGINNING AT THE JACKSON/ATCHISON COUNTY LINE THENCE EAST TO WEST JUNCTION US-159/K-116 AND THEN FROM EAST JUNCTION US-159/K-116 THENCE EAST TO JUNCTION US-59/K-116	16.0	Milling And Overlay	2,205	SM-IRR	2020
Atchison	U159	US-159 IN ATCHISON COUNTY BEGINNING AT THE NORTH CITY LIMITS OF NORTONVILLE (ATCHISON/JEFFERSON COUNTY LINE) THENCE NORTH TO THE WEST CITY LIMITS OF EFFINGHAM	11.4	Milling And Overlay	1,577	SM-IRR	2020
Barton		INTERSECTION OF N WASHINGTON AVE AND N 30 ROAD, NW 50 ROAD APPROX. 0.15 MI EAST OF NW 10 AVENUE	0.5	Intersection Improvement	271	LC-RES	2021
Barton		K&O RAILROAD & SW 40TH AVENUE AT GREAT BEND	-	Flashing Light Signal	325	LC-RXR	2021
Barton	U281	BRIDGE #016 ON US-281 LOCATED 2.52 MILES NORTH OF US-56/K-156/K-96	-	Bridge Replacement	505	SM-PBR	2020
Bourbon	K031	K-31 BEGINNING AT THE BOURBON/LINN COUNTY LINE EAST TO JUNCTION K-65/K-31	1.8	Milling And Overlay	149	SM-IRR	2020
Bourbon	K039	BRIDGE #045 ON K-39 LOCATED 7.43 MILES EAST OF EAST JUNCTION K-3	-	Bridge Replacement	1,351	SM-PBR	2021
Bourbon	U069	US-69 IN BOURBON COUNTY BEGINNING 0.5 MILES SOUTH OF JUNCTION K-7/US-69 THENCE NORTH TO SOUTH JUNCTION US-54/US-69	5.7	3in Overlay	1,112	SM-RIP	2020
Brown		BRIDGE LOCATED ON ACORN ROAD 1 MILE E & 2.6 MILES N OF WETMORE OVER MUDDY CREEK	0.1	Bridge Replacement	609	LC-RES	2020
Brown		PROVIDE FUNDS TO THE KICKAPOO TRIBE IN KANSAS	-	Funds Only	-	LC-LOC	2021
Brown		SABETHA: 260TH STREET AND 280TH ST.	0.8	Intersection Improvement	970	LC-HES	2022
Brown	K020	K-20 IN BROWN COUNTY BEGINNING AT EAST JUNCTION US-73/K-20 THENCE EAST TO THE BROWN/DONIPHAN COUNTY LINE	5.5	Milling And Overlay	759	SM-IRR	2020
Brown	U073	US-73: WALNUT CREEK BRIDGE 10 MILES NORTH OF THE US-36	-	Bridge Replacement	3,228	SM-PBR	2020

Blanks in the Const. Cost column indicate that the project does not have a construction work phase.

A breakdown of the Program Cat and Subcat column is provided preceding the project lists.

County	Route	Location Description	Length (Miles)	Type of Work	Est FY Const. Cost (1,000's)	Prog Cat AND Subcat	Fiscal Year

## Kansas Airport Improvement Program Project Summary by County - FY 2020

County	City	Project	Total Cost	State Funds	Local Funds
Anderson	Garnett	1/19 runway seal and repair high severity cracks	\$45,000.00	\$40,500.00	\$4,500.00
Atchison	Atchison	Surface seal of runway	\$59,263.11	\$56,925.00	\$5,926.31
Bourbon	Fort Scott	AGIS updates and runway extension - design	\$160,000.00	\$152,000.00	\$8,000.00
Brown	Hiawatha	10/28 runway edge lighting - design	\$20,000.00	\$19,000.00	\$1,000.00
Brown	Hiawatha	17/35 runway edge lighting - design	\$20,000.00	\$19,000.00	\$1,000.00
Brown	Hiawatha	Taxilane renovation - construction	\$68,100.00	\$61,290.00	\$6,810.00
Brown	Hiawatha	Taxilane renovation - design	\$11,900.00	\$11,305.00	\$595.00
Butler	Augusta	Reconstruct apron access to community hangar	\$85,000.00	\$76,500.00	\$8,500.00
Cheyenne	Saint Francis	Extend SE taxiway 230' for new businesses	\$148,000.00	\$133,200.00	\$14,800.00
Crawford	Pittsburg	Remove trees obstructing runways	\$20,000.00	\$18,000.00	\$2,000.00
Crawford	Pittsburg	Replace AWOS ceilometer and main central data unit	\$48,000.00	\$43,200.00	\$4,800.00
Gove	Quinter	Install AWOS III	\$150,000.00	\$135,000.00	\$15,000.00
Hamilton	Syracuse	runway rehab	\$15,000.00	\$13,500.00	\$1,500.00
Harper	Anthony	AGIS and flight check	\$55,000.00	\$52,250.00	\$2,750.00
Johnson	Gardner	8/26 runway/apron/taxilane pavement preservation	\$100,000.00	\$90,000.00	\$10,000.00
Kearny	Lakin	AWOS III design	\$15,000.00	\$14,250.00	\$750.00
Kearny	Lakin	AWOS III construction	\$180,000.00	\$162,000.00	\$18,000.00
Kearny	Lakin	14/32 runway mill and overlay - construction	\$300,000.00	\$270,000.00	\$30,000.00
Kearny	Lakin	14/32 runway mill and overlay - design	\$35,000.00	\$33,250.00	\$1,750.00
Lyon	Emporia	R1/19 runway sealcoat and preservation - design	\$40,000.00	\$38,000.00	\$2,000.00
Lyon	Emporia	R1/19 runway sealcoat and preservation - construction	\$415,000.00	\$373,500.00	\$41,500.00

## Kansas Airport Improvement Program Project Summary by County - FY 2020

County	City	Project	Total Cost	State Funds	Local Funds
Mitchell	Beloit	Airfield maintenance equipment - mower	\$16,500.00	\$8,250.00	\$8,250.00
Mitchell	Beloit	Airfield maint. equipment - gator/spray equip./snow blade	\$16,000.00	\$8,000.00	\$8,000.00
Montgomery	Independence	South apron runup area renovation - construction	\$770,000.00	\$693,000.00	\$77,000.00
Montgomery	Independence	South apron runup area renovation - design	\$30,000.00	\$28,500.00	\$1,500.00
Montgomery	Independence	Fuel systems upgrade	\$42,747.00	\$36,335.00	\$6,412.05
Morton	Elkhart	AGIS Study	\$80,000.00	\$76,000.00	\$4,000.00
Rawlins	Atwood	Update fuel card reader	\$20,000.00	\$17,000.00	\$3,000.00
Sheridan	Hoxie	Phase II - runway rehab	\$337,178.00	\$303,440.00	\$33,717.80
Butler	Benton	R17/35 runway preservation	\$357,630.00	\$321,867.00	\$35,763.00
Kingman	Kingman	PAPI replacement - construction	\$171,625.00	\$154,463.00	\$17,162.50
Kingman	Kingman	PAPI replacement - design	\$30,000.00	\$28,500.00	\$1,500.00
Seward	Liberal	Runway marking removal and replacement - construction	\$255,000.00	\$229,500.00	\$25,500.00
Seward	Liberal	Runway marking removal and replacement - design	\$20,000.00	\$19,000.00	\$1,000.00
Franklin	Ottawa	Pavement preservation on parallel/connection taxiway sys.	\$192,500.00	\$173,250.00	\$19,250.00
Butler	Rose Hill/Cook	crack seal and touchup paint	\$18,000.00	\$16,200.00	\$1,800.00
Butler	Rose Hill/Cook	Upgrade fuel credit card terminal	\$17,500.00	\$14,875.00	\$2,625.00
Butler	Rose Hill/Cook	Mill and overlay runway 17/35	\$194,000.00	\$174,600.00	\$19,400.00
Saline	Salina	Phase II - ramp reconstruction	\$800,000.00	\$720,000.00	\$80,000.00
Edwards	Kinsley	Construct tiedowns	\$12,165.00	\$10,949.00	\$1,216.50
Butler	Rose Hill/Cook	taxiway repairs	\$42,000.00	\$37,800.00	\$4,200.00

## Rail Service Improvement Fund

Many areas of the state no longer have service from Class I railroads. Short line railroads provide rail service to such areas, provide an alternative to trucks for freight (primarily grain) shippers, and keep rural areas of the state connected to the national rail network as well as national and international markets for Kansas grains and products. This alternative provides competition and helps keep shipping rates down. It also reduces the number of trucks that would otherwise be on Kansas roads and highways. This in turn avoids increased maintenance and rehabilitation costs for those roads.

The Rail Service Improvement Fund is administered by KDOT's freight and rail unit. The fund makes available to short line railroads and port authorities operating in Kansas, and shippers and local units of government in coordination with the serving railroad, low-interest, long-term (10-year) loans and grants to be used primarily for track rehabilitation, capacity improvement and economic development projects. Funds may also be used for financing and acquisition activities and the purchase of rolling stock.

Included in the list below are projects completed in FY 2019, FY 2020 projects still in progress and new projects with signed agreements.

Project Number	Rail Line Segment	Grant Amount	Loan Amount	Project Description
RF-0062-01	Cimarron Valley RR	\$459,000.00	\$612,000.00	Purchase of seven pre-owned locomotives.
RF-0066-01	Kyle RR	\$749,533.23	\$999,377.64	Replacement of 11,000 ties, ballast and surfacing.
RF-0065-01	K & O RR	\$741,863.40	\$989,151.20	Construction of two sidings near Occidental Chemical facility at Wichita.

## State/Federal Public Transit Programs - Contracts

### FY 2020 Coordinated Transit District (CTD) Operating

Coordinated Transit District (CTD) Operating	Counties Served	Total Operating Costs	Local Share	State Share	Federal Share	Total Vehicle Costs	Local Share	State Share	Federal Share
Urban Corridor Coordinated Transit Council (CTD 1)	Douglas, Johnson, Leavenworth, Wyandotte	\$514,698.78	\$146,946.78	\$138,618.02	\$229,134.00	\$542,013.00	\$108,402.60	\$0.00	\$433,610.40
Central Kansas Coordinated Transit Council (CTD 2)	Barber, Barton, Marion, McPherson, Pratt, Reno, Rice, & Stafford	\$2,454,346.86	\$710,558.68	\$469,704.00	\$1,274,084.20	\$698,367.00	\$139,673.40	\$0.00	\$558,693.60
Northeast Kansas Coordinated Transit Council (CTD 3)	Atchinson, Brown, Doniphan, Jackson, Jefferson, Leavenworth, Nemaha	\$1,183,950.57	\$331,569.18	\$201,232.40	\$651,149.00	\$353,654.00	\$70,730.80	\$0.00	\$282,923.20
Flint Hills Coordinated Transit Council (CTD 4)	Clay, Dickenson, Geary, Marshall, Pottawatomie, Riley, Washington	\$1,561,289.15	\$446,059.75	\$293,122.40	\$822,107.00	\$320,044.00	\$64,008.80	\$0.00	\$256,035.20
East Central Coordinated Transit Council (CTD 5)	Anderson, Chase, Coffey, Franklin, Greenwood, Linn, Lyon, Miami, Morris, Osage, Wabaunsee	\$2,138,580.22	\$604,569.83	\$387,450.40	\$1,146,560.00	\$665,155.00	\$133,031.00	\$0.00	\$532,124.00
Southwest Kansas Coordinated Transit Council (CTD 6)	Clark, Comanche, Edwards, Finney, Ford, Grant, Gray, Greeley, Hamilton, Haskell, Hodgeman, Kiowa, Lane, Kearney, Meade, Morton, Ness, Pawnee, Scott, Seward, Stanton, Stevens, Wichita	\$2,433,303.57	\$695,894.58	\$430,482.00	\$1,306,927.00	\$676,536.00	\$135,307.20	\$0.00	\$541,228.80
North Central Kansas Coordinated Transit Council (CTD 7)	Cloud, Ellsworth, Jewell, Lincoln, Mitchell, Ottawa, Republic, Saline	\$3,621,554.75	\$1,056,229.06	\$690,948.20	\$1,874,377.50	\$738,716.00	\$147,743.20	\$0.00	\$590,972.80
Northwest Kansas Coordinated Transit Council (CTD 8)	Cheyenne, Decatur, Ellis, Gove, Graham, Logan, Norton, Osborne, Phillips, Rawlins, Rooks, Russell, Sheridan, Sherman, Smith, Thomas, Trego, Wallace	\$1,499,826.54	\$426,316.34	\$273,819.20	\$799,691.00	\$436,338.00	\$87,267.60	\$0.00	\$349,070.40
South Central Kansas Coordinated Transit Council (CTD 9)	Butler, Cowley, Harper, Harvey, Kingman, Sedgwick, Sumner	\$1,568,517.43	\$446,262.44	\$281,739.20	\$840,515.80	\$500,043.00	\$100,008.60	\$0.00	\$400,034.40
Southeast Kansas Coordinated Transit Council (CTD 10)	Allen, Bourbon, Chautauqua, Cherokee, Crawford, Elk, Labette, Montgomery, Neosho, Wilson, Woodson	\$1,926,631.00	\$556,447.80	\$370,943.20	\$999,240.00	\$699,083.00	\$139,816.60	\$0.00	\$559,266.40
<b>TOTAL:</b>		\$18,902,698.87	\$5,420,854.44	\$3,538,059.02	\$9,943,785.50	\$5,629,949.00	\$1,125,989.80	\$0.00	\$4,503,959.20
				\$1,519,391.00					

\*These amounts include all federal and state operating monies given to the CTD's, CTD Federal Administration dollars and 5310 State operating expenses.

## FY 2020 Urban Metropolitan Contracts

Urban Metropolitan Contracts	Area Served	Total Operating Costs	Local Share	State Share	Federal Share	Total Vehicle Costs	Local Share	State Share	Federal Share
Wichita Transit	Wichita Urbanized Area			\$1,519,391.00					
Johnson County Transit	Johnson County Urbanized Area			\$1,177,095.00					
Unified Govt. of Wyandotte County/Kansas City Kansas	Kansas City Kansas Urbanized Area			\$861,814.00					
Topeka Transit	Topeka Urbanized Area			\$730,530.00					
City of Lawrence/Lawrence Transit	Lawrence Urbanized Area			\$1,259,385.00					
Flint Hills ATA	Manhattan Urbanized Area			\$392,985.00					

**Totals:** \$5,941,200.00

## FY 2020 Other Misc. Contracts

Other Misc. Contracts	Project Location/ Counties Served	Total Operating Costs	Local Share	State Share	Federal Share	Total Capital Costs	Local Share	State Share	Federal Share
Kansas University Center for Research - RTAP	Statewide Projects	\$186,658.00	\$0.00	\$0.00	\$186,658.00				
Kansas Public Transit Association	Statewide Project	\$55,125.00	\$5,125.00	\$0.00	\$50,000.00				
Kansas CTD Council	Statewide Project	\$22,500.00	\$0.00	\$4,500.00	\$18,000.00				
Butler County	Butler County					\$8,674.58	\$1,734.92	\$0.00	\$6,939.66
