

# EN ROUTE TO FRIDAY

Sept. 18,  
2020

The road to staying connected

## Tech tips: Unified Endpoint Management update

For those KDOT employees who have already installed KDOT's Unified Endpoint Management portal on Android or IOS devices like iPhones or iPads, and have received an email notifying them to take action: IT Services will be updating several devices on the MicrosoftIntune system on Sunday, Sept. 20, between the hours of 6 a.m. to noon

After the update, employees will simply need to select what location they are working from and it will make

eligible devices visible to IT Services and help ensure the correct policies get applied to mobile devices. This process will help keep KDOT data and information secure.

[Here is the link to the Device Categories Instructions.](#) Users must be logged into the VPN to access it.

You can reach the State of Kansas IT Service Desk by calling 785-296-4999 or 1-833-765-2001 — Or you can

## Hiring and Retention Manager to help recruit employees

Allison Sedore has joined KDOT as the new Hiring and Retention Manager.

Sedore grew up in the country east of Newton, but has lived in Topeka since 2010.

After getting her start in supply chain and distribution management, Sedore decided to go back to school for her master's degree with an emphasis in human resources to pursue her interest in recruitment

"This has been a growing passion of mine over the years," Sedore said. "I also have had a desire to make a bigger impact through my work in my local community but also in the State of Kansas where I call home. This role, and KDOT as an organization, allow me to fulfill both of those wishes."

Sedore says that for her entire career, she has worked outside of government in public and private companies of various sizes and industries. And she hopes she bring a new perspective to KDOT from her diverse career background.
