

Local Consult Highway Projects

KDOT hosted eight Local Consult meetings in the fall of 2012. At each meeting participants were randomly assigned to different groups. The group was tasked with identifying the top three projects for the region. Below is the list of the top highway projects for each region. If a project has an * that indicates that more than one group cited the project as a priority. Please note these projects are in no particular order. Projects that do not have a project ID number are those that were not part of the candidate list, which KDOT presented.
